St Francis Dam Disaster:

The St. Francis Dam Disaster Revisited Doyce Blackman Nunis, Charles N. Johnson, 1995 The St Francis Dam was built in San Francisquito Canyon to provide additional storage for the Los Angeles Owens River Aqueduct On the night of 12 13 March 1928 it failed catastrophically killing about 450 people in the San Francisquito and Santa Clara River valleys

Heavy Ground Norris Hundley, Donald C. Jackson, 2020-12-08 Heavy Ground explores the social political and technological history of the St Francis Dam Disaster in California the worst civil engineering disaster in twentieth century American History Approximately 400 people died in March 1928 when the concrete gravity dam built by Los Angeles engineer William Mulholland suddenly and tragically collapsed releasing over 12 billion gallons of water into the Santa Clara River Valley Man-made Disaster Charles F. Outland, 1963 **St. Francis Dam Disaster** John Nichols, 2002-11-06 Minutes before midnight on the evening of March 12 1928 the St Francis Dam collapsed The dam's 200 foot concrete wall crumpled sending billions of gallons of raging flood waters down San Francisquito Canyon sweeping 54 miles down the Santa Clara River to the sea and claiming over 450 lives in the disaster Captured here in over 200 images is a photographic record of the devastation caused by the flood and the heroic efforts of residents and rescue workers Built by the City of Los Angeles Bureau of Water Works and Supply the failure of the St Francis Dam on its first filling was the greatest American civil engineering failure of the 20th century Beginning at dawn on the morning after the disaster stunned local residents picked up their cameras to record the path of destruction and professional photographers moved in to take images of the washed out bridges destroyed homes and buildings Red Cross workers giving aid and the massive clean up that followed The event was one of the worst disasters in California's history second only to the San Francisco Earthquake and Fire Report of the Commission Appointed by Governor C. C. Young to Investigate the Causes Leading to the Failure of the St. Francis Dam Near Saugus, California California. St. Francis Dam Commission, 1928 The St. Francis Dam Disaster Doyce Blackman Nunis, Charles N. Johnson, 2002 **Man-made Disaster** Charles F. Outland, 1977 Man-made Disaster Charles F. Outland, 1963 **Ethical Issues from the St. Francis Dam Failure** J. Paul Guyer, 2018-11-27 A discussion of professional engineering ethical issues arising from the failure of the St Francis Dam in California St. Francis Dam Disaster, March 13, 1928, 1928 *Floodpath* Jon Wilkman, 2016-01-05 Amazon Book of the Year Floodpath attempts to rescue the disaster from obscurity The author captures many heartbreaking stories of survivors The effect is powerful The Wall Street Journal A visionary and controversial search for water made Los Angeles possible But the failure of the St Francis Dam remains an urgent lesson about our human limits all but forgotten today Just before midnight on March 12 1928 the St Francis Dam a twenty story high concrete structure just fifty miles north of Los Angeles suddenly collapsed releasing a devastating flood that roared fifty four miles to the Pacific Ocean destroying everything in its path It was a horrific catastrophe yet one which today is virtually forgotten With research gathered over more than two decades award winning writer and filmmaker Jon

Wilkman revisits the deluge that claimed nearly five hundred lives A key figure is William Mulholland the self taught engineer who created an unprecedented water system allowing Los Angeles to become America s second largest city and who was also responsible for the design and construction of the St Francis Dam Driven by eyewitness accounts and combining urban history with a life and death drama and a technological detective story Floodpath grippingly reanimates the reality behind L A noir fictions like the classic film Chinatown In an era of climate change increasing demand on water resources and a neglected American infrastructure the tragedy of the St Francis Dam has never been more relevant

San Francisquito Canyon Dam Disaster (California) Guy Lincoln Jones,1928 *Memorialization and Memory of Southern California's St. Francis Dam Disaster of 1928* Ann C. Stansell,2014 The commemoration of disasters is a product of social cultural economic and political forces in human society Southern California s largely unheard of St Francis Dam Disaster of 1928 provides an excellent opportunity to study this complex process of commemoration engaging memory within difference frames of reference In particular evaluating how and why this man made dam disaster has been forgotten on a state and national level but tenuously remembered within the flood zone allows for consideration of the diversity of commemorative processes in the construction of memory and heritage related to major catastrophes This research synthesizes archival and survey data to better understand how the disaster and the dead have been commemorated throughout the 54 mile flood zone spatially through state monuments community memorials grave markers and memorabilia and conceptually through poems songs and oral histories Identifying what parts of the past are remembered and how they are remembered and interpreted provides understanding of how public memory develops Further being able to determine the factors that influence why certain things are remembered and memorialized while other things are forgotten can provide insight into not only the individual motivations and perceptions related to the creation of memory but also to the larger issues of how a culture establishes both legends and traditions
