*The Principal's Office* Kate Rousmaniere, 2013-11-01 The first comprehensive history of principals in the United States. The Principal's Office is the first historical examination of one of the most important figures in American education. Originating as a head teacher in the nineteenth century and evolving into the role of contemporary educational leader, the school principal has played a central part in the development of American public education. A local leader who not only manages the daily needs of the school but also represents district and state officials, the school principal is the connecting hinge between classroom practice and educational policy. Kate Rousmaniere explores the cultural, economic, and political pressures that have impacted school leadership over time and considers professionalization, the experiences of women, and people of color, and progressive community initiatives. She discusses the intersections between the role of the school principal with larger movements for civil rights, parental and community activism, and education reform. The school principal emerges as a dynamic character in the center of the educational enterprise, ever maneuvering between multiple constituencies, responding to technical and bureaucratic demands, and enacting different leadership strategies. By focusing on the historic development of school leadership, this book provides insights into the possibilities of school improvement for contemporary school leaders and reformers.

**Renewal** Harold Kwalwasser, 2012-03-16 Harold Kwalwasser has put together a call to action for education reform that makes a clear case for what has to be done in order to educate all children to their full potential He visited forty high performing and transforming school districts charters parochial and private schools to understand why they have succeeded where others have failed The analysis in *Renewal Remaking America's Schools for the Twenty First Century* brings together all of the necessary changes in one dynamic strategy Many schools even though facing seemingly impossible odds have succeeded brilliantly But their histories also reflect that there are neither silver bullets or demons The heart of successful reform is systemic change which requires the patience understanding and commitment of every adult who has a role in the process from parents and taxpayers to the school board members superintendents and teachers and on to state legislators and members of Congress *Renewal* offers a clear picture of how to move away from the mass production style of education that most schools offered throughout the twentieth century to a new more innovative and flexible model that can meet this country's promise of truly educating every child and preparing each of them for the challenges ahead Hear from the author in this 5 minute video on YouTube The Portable Mentor Frederick A. Lindley, 2008-09-17 This second edition helps principals and their mentors navigate through the first months of a principalship with updated ISLLC standards and strategies for improving student achievement **Balanced Leadership** Sheryl Boris-Schacter, Sondra Langer, 2006 Alarmed

by mounting evidence of a national shortage of qualified and willing principals the authors surveyed or interviewed over 200 school principals from across the country to find out why so many are leaving the profession and how those who stay manage their work They discovered that regardless of a principal's race gender school level geographic region or tenure there was a remarkable consistency in the challenges identified and suggestions given for revamping the role of the American principal Featuring stories shared by practicing principals this timely volume offers fresh insights on ways to both attract and retain good principals shows how successful principals reconcile their expectations and hopes with the realities and disappointments encountered in their work examines issues common to all principals such as time management staff evaluations keeping the focus on instruction community expectations and pursuing a balanced life presents strategies that principals have used to make their role more effective and more attractive and provides practical ideas for coping with the present and envisioning the future including alternative principal models *The Elusive What and the Problematic How*, 2008-01-01 For the authors in this book there can be no valid excuses for ignorance in any aspect of education as theory practice That is If we come to learn that all educational problems involve knowledge of complex systems and processes then quick simple solutions should not be an educator's first or only expedient option If all education requires a measure of cultural and contextual understandings then uniform standardized programs and lessons will not meet the needs of all children or communities If educational change takes time and strenuous efforts to take hold then why do we abandon and restart reforms efforts year after year If educational practices are best performed by those closest to the problems then why do we not prepare and continuously develop teachers and administrators to grow intellectually and politically to make wise decisions If who a person is culturally and intellectually shapes who they are as educators then why are our recruitment selection induction and retention policies not influenced by this assumption If today's best practices have not taken careful note of successes in the past then how do we validly measure best practices in use today If one time standardized test scores are not adequate measures of a person's worth a teacher's competency or a school's value to its community then why do our policies and practices say otherwise Unfortunately our ignorance of the what and the how of education and educational leadership has persisted across contexts and history Why This book provides both theoretical and practical answers to these elusive and problematic issues **Mentoring with Meaning** Carlos R. McCray, Bruce S. Cooper, 2015-08-21 Mentoring with Meaning and its forthcoming companion Making Mentoring Work will help educators to mentor or to be mentored effectively in our schools We all have had mentors those key adults from family work and or schools who have assisted us in learning Mentors help us to become good adults skilled and able professionals and contributing member of community and society This book seeks to help everyone educators in particular to be mentored and to be a mentor Setting Leadership Priorities Suzette Lovely, 2005-09-22 Dig out from your desk and discover a refreshing new world of school leadership Do you find yourself so busy digging a ditch with a spoon that you don't have time to go back to the tool shed and fetch a shovel Are your

in box and daily schedule at maximum capacity Does it seem impossible to include those extras that would make your job more enjoyable and satisfying Conquering overload is a constant challenge for 21st century school administrators This book breathes fresh air into the often murky world of priority management Setting Leadership Priorities teaches busy professionals how to distinguish between information activities and situations that must be retained those that might be refined and many that should be relinquished Drawing on more than twenty years of experience as a teacher and administrator Lovely understands that reducing frustration and overload helps administrators by Increasing retention rates and improving success on the job Allowing them to redistribute leadership by delegating Creating balance in their daily lives and in their long term professional journey When the emergencies outnumber the victories and you can't see the door over your towering in box it's time to reshuffle your priorities and let clarity emerge
