Stafford Chronicles A History Of Manahawkin New Jersey:

Stafford Chronicles Down the Shore Publishing, 2001 For many travelers on their way to or from Long Beach Island Manahawkin may only be the Parkway exit and main highway to the beach But this rapidly growing community by the bay has a rich past that is intimately tied with the Island and the maritime and coastal traditions of the South Jersey shore This new hardcover pictorial history explores a shore town whose roots go back in time to before the Revolutionary War The stories are based in southern Ocean County but they range to high points of Shore history from the 1600s to the present With stories of people families and landmarks Stafford Chronicles vividly recalls different ways of life in a town that has seen many changes We hear accounts handed down of sea serpents and ancient whalers Others tell of the feel of salt spray that braced men working in the now defunct pound fishing industry on their way through the breakers over on the beach Or how women made their mark in the local workplace such as at New Jersey Bell in the 1940s A resident recalls his youth playing sandlot baseball with Doc Cramer before Doc's pro days Another tells of fishing from the window growing up in a house situated on the old plank causeway bridge And we learn that some of the east coast's first surfboards were shaped in Manahawkin backyards Readers will discover local landmarks some long gone others in a new incarnation they will learn why there is an Old Stone Store and a Manahawkin Lake they will relive the days of the Tuckerton and Long Beach Railroad they will visit with world renowned decoy carver Hurley Conklin they will discover who Doc Hilliard and Doc Lane were they will hear living history told by those who lived it Other chapters have written accounts from older times such as excerpts from Nathaniel Bishop's Four Months in a Sneakbox detailing his trip down the Mississippi Stafford Chronicles is a remarkable collection of essays reminiscences memories and photographs Reading it is like sitting on the porch talking with your neighbors

The Geography of Risk Gilbert M. Gaul, 2025-09-23 This century has seen the costliest hurricanes in U.S. history but who bears the brunt of these monster storms Consider this Five of the most expensive hurricanes in history have made landfall since 2005 Katrina 160 billion Ike 40 billion Sandy 72 billion Harvey 125 billion and Maria 90 billion With more property than ever in harm's way and the planet and oceans warming dangerously it won't be long before we see a 250 billion hurricane Why Because Americans have built 3 trillion worth of property in some of the riskiest places on earth barrier islands and coastal floodplains And they have been encouraged to do so by what Gilbert M. Gaul reveals in *The Geography of Risk* to be a confounding array of federal subsidies tax breaks low interest loans grants and government flood insurance that shift the risk of life at the beach from private investors to public taxpayers radically distorting common notions of risk These federal incentives Gaul argues have resulted in one of the worst planning failures in American history and the costs to taxpayers are reaching unsustainable levels We have become responsible for a shocking array of coastal amenities new roads bridges buildings streetlights tennis

courts marinas gazebos and even spoiled food after hurricanes The Geography of Risk will forever change the way you think about the coasts from the clash between economic interests and nature to the heated politics of regulators and developers
