The Red Flag David Priestland, 2016-05-03 The best and the most accessible one volume history of communism now available A far reaching vividly written account Foreign Affairs In The Red Flag Oxford professor David Priestland tells the epic story of a movement that has taken root in dozens of countries across two hundred years from its birth after the French Revolution to its ideological maturity in nineteenth century Germany to its rise to dominance and subsequent fall in the twentieth century Beginning with the first modern Communists in the age of Robespierre Priestland examines the motives of thinkers and leaders including Marx Engels Lenin Stalin Castro Che Guevara Mao Ho Chi Minh Gorbachev and many others Priestland also shows how Communism in all its varieties appealed to different societies for different reasons in some as a response to inequalities and in others more out of a desire to catch up with the West But paradoxically while destroying one web of inequality Communist leaders were simultaneously weaving another It was this dynamic together with widespread economic failure and an escalating loss of faith in the system that ultimately destroyed Soviet Communism itself At a time when global capitalism is in crisis and powerful new political forces have arisen to confront Western democracy The Red Flag is essential reading if we are to apply the lessons of the past to navigating the future Detailed and scholarly but written in lively prose this is a rich satisfying account of the most successful utopian political movement in history Publishers Weekly starred review

Red Humor Raphael Israeli, 2020-03-19 It is important to remember the crucial era of modern history dominated by Soviet Russia and Red China symbolized by Stalin and Mao through Communist style humor The jokes were created mainly in the West but also within the Communist system which produced a rich sample of humor about political rule music oppression of the common man and other realities of Communism After tensions were thought dissipated between the superpowers and capitalism was

declared the winner Communism was thought to have disappeared But with the renewal of world difficulties there is a need to reminisce on how Communism was conceived through Soviet jokes Red Humor is divided into the Czarist period to Stalin's era supplemented by memorable one liners that immortalize that seven decade harsh era The author wrote this joke collection to collect those bits of humor before they are forgotten A Jew was dying in his bed during a bitterly cold and snowy night in Russia He called his wife to his side and faintly murmured Sarah The time has come Call the Priest The Priest Are you crazy Abraham You mean Rabbi No Sarah I mean the Priest I don't want to disturb the Rabbi in such terrible weather as this

Madagascar Plan Robert S Wistrich on Holocaust denial James E Young on Holocaust literature **In the Shadow of the Red Banner** Yitzhak Arad, 2010 Over 500 000 Jews fought under the Soviet banner in World War Two of which an approximate 40 percent gave their lives the highest percentage of all the nations of the Soviet Union and among all the other nations that fought in the Second World War Dr Arad now sets the record straight on the immense contribution of Soviet Jewry in the battle against Nazi Germany a part of history long concealed by the Soviet government After outlining the military progress of the war the book documents the contributions of Soviet Jewry on the battlefronts and in the weapons development industry in the ghetto undergrounds and in partisan warfare In addition the book records the Soviet government's deliberate attempts to downplay the Jewish effort and the anti-Semitism that Jewish soldiers and partisan groups suffered at the hands of the Soviet establishment even while giving their lives for their country Replete with the stories of individual heroes of all ranks the book pays a debt of gratitude to those who paid the ultimate price to achieve our victory **The Dictators: Hitler's Germany, Stalin's Russia** Richard Overy, 2006-01-17 A book of great importance it surpasses all others in breadth and depth Commentary If the past century will be remembered for its tragic pairing of civilized achievement and organized destruction at the heart of darkness may be found Hitler Stalin and the systems of domination they forged Their lethal regimes murdered millions and fought a massive deadly war Yet their dictatorships took shape within formal constitutional structures and drew the support of the German and Russian people In the first major historical work to analyze the two dictatorships together in depth Richard Overy gives us an absorbing study of Hitler and Stalin ranging from their private and public selves their ascents to power and consolidation of absolute rule to their waging of massive war and creation of far flung empires of camps and prisons The Nazi extermination camps and the vast Soviet Gulag represent the two dictatorships in their most inhuman form Overy shows us the human and historical roots of these evils *Thank You, Comrade Stalin!* Jeffrey Brooks, 2021-04-13 Thank you our Stalin for a happy childhood Thank you dear Marshal Stalin for our freedom for our children's happiness for life Between the Russian Revolution and the Cold War Soviet public culture was so dominated by the power of the state that slogans like these appeared routinely in newspapers on posters and in government proclamations In this penetrating historical study Jeffrey Brooks draws on years of research into the most influential and widely circulated Russian newspapers including Pravda Izvestiia and the army paper Red Star to explain the origins the nature and the effects of this unrelenting idealization of the state the Communist Party and the leader Brooks shows how beginning with Lenin the Communists established a state monopoly of the media that absorbed literature art and science into a stylized and ritualistic public culture a form of political performance that became its own reality and excluded other forms of public reflection He presents and explains scores of self-congratulatory newspaper articles including tales of Stalin's supposed achievements and virtue accounts of the country's allegedly dynamic economy and warnings about the decadence and cruelty of the capitalist West Brooks pays particular attention to the role of the press in the

reconstruction of the Soviet cultural system to meet the Nazi threat during World War II and in the transformation of national identity from its early revolutionary internationalism to the ideology of the Cold War He concludes that the country's one-sided public discourse and the pervasive idea that citizens owed the leader gratitude for the gifts of goods and services led ultimately to the inability of late Soviet Communism to diagnose its own ills, prepare alternative policies and adjust to new realities The first historical work to explore the close relationship between language and the implementation of the Stalinist Leninist program *Thank You Comrade Stalin* is a compelling account of Soviet public culture as reflected through the country's press

Red Nations Jeremy Smith, 2013-09-12 *Red Nations* offers an illuminating and informative overview of how the non-Russian republics of the Soviet Union experienced communist rule It surveys the series of historical events that contributed to the break-up of the Soviet Union and evaluates their continuing resonance across post-Soviet states today Drawing from the latest research Professor Smith offers comprehensive coverage of the revolutionary years, the early Soviet policies of developing nations, Stalin's purges and deportations of small nationalities and the rise of independence movements Through a single unified narrative this book illustrates how in the post-Stalin period many of the features of the modern nation-state emerged Both scholars and students will find this an indispensable contribution to the history of the dissolution of the USSR, the reconstruction of post-Soviet society and its impact on non-Russian citizens from the years of the Russian Revolution through to the present day

Farming the Red Land Jonathan L. Dekel-Chen, 2008-10-01 This is the first history of the Jewish agricultural colonies that were established in Crimea and Southern Ukraine in 1924 and that fewer than 20 years later ended in tragedy Jonathan Dekel-Chen opens an extraordinary window on Soviet rural life during these turbulent years and he documents the remarkable relations that developed among the American Jewish sponsors of the ambitious project, the Soviet authorities and the colonists themselves Drawing on extensive and largely untouched archives and a wealth of previously unpublished oral histories the book revises what has been understood about these agricultural settlements Dekel-Chen offers new conclusions about integration and separation among Soviet Jews, the contours of international relations and the balance of political forces within the Jewish world during this volatile period

Stalin's Revenge Anthony Tucker-Jones, 2009-07-19 In the summer of 1944 the Red Army crushed Army Group Centre in one of the largest offensives in military history Operation Bagration launched almost exactly three years after the Nazi invasion of the Soviet Union was Stalin's retribution for Hitler's Operation Barbarossa Earlier battles at Stalingrad and Kursk paved the way for Soviet victory but as Anthony Tucker-Jones demonstrates in this fascinating study Bagration ensured that the Germans would never regain the strategic initiative In one fell swoop the Wehrmacht lost a quarter of its strength on the Eastern Front And in a series of overwhelming assaults the Red Army recaptured practically all the territory the Soviet Union had lost in 1941 advanced into East Prussia and reached the outskirts of Warsaw As he reconstructs this massive and complex battle Anthony Tucker-Jones assesses the opposing forces and their commanders and gives a vivid insight into the planning and

decision making at the highest level He recreates the experience of the soldiers on the battlefield by using graphic contemporary accounts and he sets the Bagration offensive in the wider context of the Soviet war effort He also asks why Stalin's road to retribution proved to be such a long and bloody one for the Germans despite their crippling losses managed to resist for another ten months

Genocide: A Thematic Approach Thomas Earl Porter, John Cox, 2025-04-08 The purpose of this volume is not simply to compile yet another wearying chronicle of the horrors that have been committed by our fellow human beings Most students who register for a course on Genocide assume that it will focus perhaps exclusively on the Holocaust the case with which they are most familiar Many of them have read Elie Wiesel's eloquent masterpiece *Night* in secondary school and some may have read *The Diary of Anne Frank* A few students might even know that a genocide occurred in Rwanda or Darfur Like most people however they equate genocide simply with mass killing and assume that genocide must by definition entail millions of deaths Raphael Lemkin who coined the word genocide meaning literally to kill a people originally defined it a colonial crime of destroying the national patterns of the oppressed and imposing the national patterns of the oppressors This was a process Lemkin said deliberately intending to destroy a people's culture that could sometimes but not necessarily always result in mass murder Students need to know that after World War II the great powers undermined and co-opted the process of writing the 1948 Genocide Convention at the UN because these nations did not want their own colonial crimes oppression of minorities and destructions of cultures to be included in the definition Instead they simply used the Holocaust as a template and succeeded in distorting what Lemkin originally meant by genocide the murder of a people by destroying their social and cultural connections

Stalin's Plans for Capturing Germany Bogdan Musial, 2023-10-30 Drawing on a host of internal Soviet Politburo discussions memoranda and speeches this book shows that the Soviet Union was a heavily militarized state that incessantly planned to unleash a great ideologically motivated war While the myth of Soviet benevolence has now largely been discredited the idea that Stalin's Soviet Union was a peaceful power that sought to prevent the war through all kinds of means including an ill-fated non-aggression treaty with Hitler remains popular to this day Indeed this narrative is not only promoted by Putin's propaganda but also by a host of Western intellectuals and even historians who take public declarations at face value Drawing on a host of internal Soviet Politburo discussions memoranda and speeches this book shows that the Soviet Union was a heavily militarized state that incessantly planned to unleash a great ideologically motivated war against the rest of the world In fact its entire political life revolved around the question of war especially following the onset of the Great Depression in 1929 which convinced Soviet leaders of the imminent collapse of the capitalist system abroad Thus both the collectivization as well as the terror that followed in its wake were done with the coming war in mind even though there was no tangible danger of war Slowed down by countless devastating setbacks Stalin was nevertheless able to amass a gigantic army by the late 1930s When Hitler approached Stalin in 1939 asking for Soviet neutrality in his planned invasion of Poland Stalin sensed a golden opportunity by supporting Hitler

he could turn the European powers against each another allowing him to intervene once they were sufficiently weakened
However Stalin miscalculated Hitler beat both Poland and France in less than a year and then turned against Moscow in
1941 long before Stalin was ready for his own attack *Red Holocaust* ,
