and the Central America was one of them On its fateful voyage the ship was carrying nearly 600 passengers and a huge haul of up to 20 tons of gold worth an estimated 2 million at the time On the way from Cuba to New York City the Central America was caught in a Stage 2 hurricane that it never had a chance of knowing about ahead of time With winds over 100 miles per hour the hurricane ripped its sails and the ship started taking on water while struggling to keep its boiler going These conditions all but doomed the ship and while over 150 passengers were ferried in lifeboats to another ship for rescue the intensity of the storm kept the other passengers of the Central America away from salvation When the ship finally sank 425 passengers went down with it and only a handful of survivors were picked up in the ensuing days The loss of life was a big enough calamity but the Central America had gone down with so much gold that it scared the American public which was already beginning to deal with a financial downturn that culminated in the Panic of 1857 This was understandable given that the ship was carrying the modern equivalent of hundreds of millions of dollars and in fact when 20th century salvage teams located the search and began bringing gold back up to the surface they found one 80 pound piece that immediately became the most valuable piece of currency in the world Naturally lawsuits over the recovered gold sprang up and the Central America has remained controversial ever since

The Sinking of the SS Central America The Tragic Story of the Richest Shipwreck in History chronicles the tragic fate of the ship the tribulations the survivors had to endure in the aftermath of the sinking and its impact on the Panic of 1857 Along with pictures of important people places and events you will learn about the USS Indianapolis like never before in no time at all *The World's Richest Wrecks* Robert F. Marx, Jenifer Marx, 2009 A culmination of more than 50 years of experience and research covering all known shipwrecks of both the Old World and New World whose cargoes contained at least 10 million worth of treasures Contains many maps collected by Marx and more than 100 photos of shipwrecks treasures and diving salvage operations **Lost Treasure Ships of the Twentieth Century** Nigel Pickford, 1999 This lavishly illustrated profile of 18 of the greatest shipwrecks of our century is filled with intriguing accounts of lost treasure dramatic sinkings heroic feats of survival and technically sophisticated salvage operations 160 photos many in color 18 maps *U-boats Destroyed* Paul Kemp, 1997
