Stalking Big Game with a Camera in Equatorial Africa Marius Maxwell,1924 **Punch** Mark Lemon, Henry Mayhew, Tom Taylor, Shirley Brooks, Francis Cowley Burnand, Owen Seaman, 1929 Picturing Empire James R. Ryan, 2013-06-01 Coinciding with the extraordinary expansion of Britain's overseas empire under Queen Victoria the invention of photography allowed millions to see what they thought were realistic and unbiased pictures of distant peoples and places This supposed accuracy also helped to legitimate Victorian geography s illuminations of the darkest recesses of the globe with the light of scientific mapping techniques But as James R Ryan argues in Picturing Empire Victorian photographs reveal as much about the imaginative landscapes of imperial culture as they do about the real subjects captured within their frames Ryan considers the role of photography in the exploration and domestication of foreign landscapes in imperial warfare in the survey and classification of racial types in hunting with the camera and in teaching imperial geography to British schoolchildren Ryan s careful exposure of the reciprocal relation between photographic image and imperial imagination will interest all those concerned with the cultural history of the British Empire We Alone David Western, 2020-11-24 A thoughtful exploration of how humans have endangered the Earth but can pull it back from the brink as told by a renowned conservationist This personal and thoughtful book by renowned Kenya conservationist David Western traces our global conquest from Maasai herders battling droughts in Africa to the technological frontiers of California Western draws on a half century of research in the savannas and his own life s journey to argue that conservation is not a modern invention. The success of all societies past and present lies in conservation practices breaking biological barriers and learning to live in large cooperative groups able to sustain a healthy environment Our ecological emancipation from nature enabled us to expand our horizons from conserving food and water for survival to saving whales elephants and our cultural heritage In the Anthropocene our scientific

knowledge and modern sensibilities offer hope for combating global warming and creating a planet able to sustain the wealth of life but only if we use our unique cultural capacity of cooperation to plan our future Stalking Big Game with a Camera Marius Maxwell,1924 Pacific Ports ,1919 **Stalking The Story** Jay Douglas, 2011-12-06 Working with the idea that writing a screenplay is a process of discovery Stalking the Story uses the world of the detective that prototypical master of observation as the stage for storyplanning The detective s whole reason for being is to discover bits of seemingly unrelated facts observations and hearsay and fashion them into a narrative that lays out whodunit Replace detective with writer and whodunit with his story and it s evident that the writer and the detective have more than a little incommon In this clever and unique writing manual Jay Douglas puts the reader in the position of a detective searching for a missing story then guides him with the assistance of some classic TV sleuths through the experience of finding that story the story that is central to the screenplay he wants to write Discovery ,1924 Fur News and Outdoor World ,1929 Francis Bacon - In the Mirror of Photography Katharina Günther, 2022-05-09 The British painter Francis Bacon 1909 1992 is famed for his idiosyncratic mode of depicting the human figure Thirty years after his death his working methods remain underexplored New research on the Francis Bacon Studio Archive at Hugh Lane Gallery Dublin sheds light on the genesis of his works namely the photographic source material he collected in his studios on which he consistently based his paintings The book brings together the artist's pictorial springboards for the first time delineating and interpreting recurring patterns and methods in his preparatory work and adoption of photographic material In addition it correctly locates chance as a driving force in Bacon's working method and qualifies the significance of photography for the painter German Photo Book Award 23 24 Gold in the category Text Volume Photo Theory Magyar es angol szótár Arthur Battishill Yolland, 1908 Married Adventure Pascal James Imperato, 1999-03 Martin and Osa Johnson thrilled American audiences of the 1920s and 30s with their remarkable movies of far away places exotic peoples and the dramatic spectacle of African wildlife Their own lives were as exciting as the movies they made sailing through the South Sea Islands dodging big game at African waterholes flying small planes over the veldt taking millionaires on safari Osa Johnson's ghostwritten autobiography I Married Adventure became a national bestseller The 1939 film version was billed as the story of World Exploration's First Lady whose indomitable daring would be stayed by neither snarling lion nor crouching leopard tropic tempest nor savage tribesman Heroes to millions Osa and Martin seemed to embody glamor daring and the all American ideal of self reliance Probing beneath the glamor of the Johnsons public image Pascal and Eleanor Imperato explore the more human side of the couple s lives and ways the Johnsons shaped for better and for worse America's vision of Africa Drawing on many years of research access to a wealth of letters and archives interviews with many who worked closely with the Johnsons and their own deep knowledge of Africa the authors present a fascinating and intimate portrait of this intrepid couple The Geographical Journal, 1926 Includes the Proceedings of the Royal geographical society formerly pub separately **Reference Catalogue**
