Stalking the Vietcong Stuart Herrington, 2004-11-23 In a gripping memoir that reads like a spy novel one man recounts his personal experience with Operation Phoenix the program created to destroy the Vietcong's shadow government which thrived in the rural communities of South Vietnam Stuart A Herrington was an American intelligence advisor assigned to root out the enemy in the Hau Nghia province His two year mission to capture or kill Communist agents operating there was made all the more difficult by local officials who were reluctant to cooperate villagers who were too scared to talk and VC who would not go down without a fight Herrington developed an unexpected but intense identification with the villagers in his jurisdiction and learned the hard way that experiencing war was profoundly different from philosophizing about it in a seminar room

Advising Indigenous Forces Robert D. Ramsey, 2011-05 The Army has recently embarked on massive advisory missions with foreign militaries in Iraq Afghanistan and elsewhere around the globe This historical study examines three cases in which the U S Army has performed this same mission in the last half of the 20th century In Korea during the 1950s in Vietnam in the 1960s and 1970s and in El Salvador in the 1980s The Army thought it learned The need for U S advisors to have extensive language and cultural training the lesser importance for them of technical and tactical skills training and the need to adapt U S organizational concepts training techniques and tactics to local conditions These lessons are still important and relevant today This is a print on demand report

A History of Political Murder in Latin America W. John Green, 2015-04-27 A sweeping study of political murder in Latin America This sweeping history depicts Latin America's pan regional culture of

political murder Unlike typical studies of the region which often focus on the issues or trends of individual countries this work focuses thematically on the nature of political murder itself comparing and contrasting its uses and practices throughout the region W John Green examines the entire system of political murder the methods and justifications the perpetrators employ the victims and the consequences for Latin American societies Green demonstrates that elite and state actors have been responsible for most political murders assassinating the leaders of popular movements and other messengers of change Latin American elites have also often targeted the potential audience for these messages through the region's various dirty wars In spite of regional differences elites across the region have displayed considerable uniformity in justifying their use of murder imagining themselves in a class war with democratic forces While the United States has often been complicit in such violence Green notes that this has not been universally true with US support waxing and waning A detailed appendix exploring political murder country by country provides an additional resource for readers Secrets and Lies in Vietnam Panagiotis Dimitrakis, 2016-05-20 The Vietnam War lasted twenty years and was the USA's greatest military failure An attempt to stem the spread of Soviet and Chinese influence the conflict in practice created a chaotic state torn apart by espionage terrorism and guerilla warfare American troops quickly became embroiled in jungle warfare and knowledge of the other side's troop movements communication lines fighting techniques and strategy became crucial Panagiotis Dimitrakis uncovers this battle for intelligence and tells the story of the Vietnam War through the newly available British American and French sources including declassified material In doing so he dissects the limitations of the CIA the NSA the MI6 and the French intelligence the SDECE in gathering actionable intelligence Dimitrakis also shows how the Vietminh under Ho Chi Minh established their own secret services how their high grade moles infiltrated the US and French military echelons and the government of South Vietnam and how Hanoi's intelligence apparatus eventually suffered seriously from spies amongst us paranoia In doing so he enhances our understanding of the war that came to define its era

Civilizing Torture W. Fitzhugh Brundage, 2020-03-10 Pulitzer Prize Finalist Silver Gavel Award Finalist A sobering history of how American communities and institutions have relied on torture in various forms since before the United States was founded Los Angeles Times That Americans as a people and a nation state are violent is indisputable That we are also torturers domestically and internationally is not so well established The myth that we are not torturers will persist but Civilizing Torture will remain a powerful antidote in confronting it Lawrence Wilkerson former Chief of Staff to Secretary of State Colin Powell Remarkable A searing analysis of America's past that helps make sense of its bewildering present David Garland author of *Peculiar Institution* Most Americans believe that a civilized state does not torture but that belief has repeatedly been challenged in moments of crisis at home and abroad From the Indian wars to Vietnam from police interrogation to the War on Terror US institutions have proven far more amenable to torture than the nation's commitment to liberty would suggest Civilizing Torture traces the history of debates about the efficacy of torture and reveals a recurring

struggle to decide what limits to impose on the power of the state At a time of escalating rhetoric aimed at cleansing the nation of the undeserving and an erosion of limits on military power the debate over torture remains critical and unresolved

Honorable Exit Thurston Clarke, 2020-03-24 A MAIN SELECTION OF THE MILITARY BOOK CLUB A groundbreaking revisionist history of the last days of the Vietnam War that reveals the acts of American heroism that saved more than one hundred thousand South Vietnamese from communist revenge In 1973 U S participation in the Vietnam War ended in a cease fire and a withdrawal that included promises by President Nixon to assist the South in the event of invasion by the North But in early 1975 when North Vietnamese forces began a full scale assault Congress refused to send arms or aid By early April that year the South was on the brink of a defeat that threatened execution or years in a concentration camp for the untold number of South Vietnamese who had supported the government in Saigon or worked with Americans Thurston Clarke begins *Honorable Exit* by describing the iconic photograph of the Fall of Saigon desperate Vietnamese scrambling to board a helicopter evacuating the last American personnel from Vietnam It is an image of U S failure and shame Or is it By unpacking the surprising story of heroism that the photograph actually tells Clarke launches into a narrative that is both a thrilling race against time and an important corrective to the historical record For what is less known is that during those final days scores of Americans diplomats businessmen soldiers missionaries contractors and spies risked their lives to assist their current and former translators drivers colleagues neighbors friends and even perfect strangers in escape By the time the last U S helicopter left Vietnam on April 30 1975 these righteous Americans had helped to spirit 130 000 South Vietnamese to U S bases in Guam and the Philippines From there the evacuees were resettled in the U S and became American citizens the leading edge of one of America s most successful immigrant groups Into this tale of heroism on the ground Clarke weaves the political machinations of Henry Kissinger advising President Ford in the White House while reinforcing the delusions of the U S Ambassador in Saigon who at the last minute refused to depart Groundbreaking page turning and authoritative *Honorable Exit* is a deeply moving history of Americans at a little known finest hour *America in Vietnam* Herbert Y.

Schandler, 2009-09-16 This controversial and timely book about the American experience in Vietnam provides the first full exploration of the perspectives of the North Vietnamese leadership before during and after the war Herbert Y Schandler offers unique insights into the mindsets of the North Vietnamese and their response to diplomatic and military actions of the Americans laying out the full scale of the disastrous U S political and military misunderstandings of Vietnamese history and motivations Including frank quotes from Vietnamese leaders the book offers important new knowledge that allows us to learn invaluable lessons from the perspective of a victorious enemy Unlike most military officers who served in Vietnam Schandler is convinced the war was unwinnable no matter how long America stayed the course or how many resources were devoted to it He is remarkably qualified to make these judgments as an infantry commander during the Vietnam War a Pentagon policymaker and a scholar who taught at West Point and National Defense University His extensive personal interviews with

North Vietnamese are drawn from his many trips to Hanoi after the war Schandler provides not only a definitive analysis of the American failure in Vietnam but a crucial foundation for exploring the potential for success in the current guerrilla wars the United States is fighting in Iraq and Afghanistan **Governance in Post-Conflict Societies** Derick W.
