**Hart Crane's Poetry** John T. Irwin, 2011-11-17 In one of his letters Hart Crane wrote Appollinaire lived in Paris I live in Cleveland Ohio comparing misspelling and all the great French poet s cosmopolitan roots to his own more modest ones in the midwestern United States Rebelling against the notion that his work should relate to some European school of thought Crane defiantly asserted his freedom to be himself a true American writer John T Irwin long a passionate and brilliant critic of Crane gives readers the first major interpretation of the poet s work in decades Irwin aims to show that Hart Crane s epic *The Bridge* is the best twentieth century long poem in English Irwin convincingly argues that compared to other long poems of the century *The Bridge* is the richest and most wide ranging in its mythic and historical resonances the most inventive in its combination of literary and visual structures the most subtle and compelling in its psychological underpinnings Irwin brings a wealth of new and varied scholarship to bear on his critical reading of the work from art history to biography to classical literature to philosophy revealing *The Bridge* to be the near perfect synthesis of American myth and history that Crane intended Irwin contends that the most successful entryway to Crane s notoriously

difficult shorter poems is through a close reading of *The Bridge* Having admirably accomplished this Irwin analyzes Crane's poems in *White Buildings* and his last poem *The Broken Tower* through the larger context of his epic showing how Crane in the best of these worked out the structures and images that were fully developed in *The Bridge* Thoughtful deliberate and extraordinarily learned this is the most complete and careful reading of Crane's poetry available Hart Crane may have lived in Cleveland Ohio but as Irwin masterfully shows his poems stand among the greatest written in the English language

discourses about urbanization through lyrical representations of cities and the diverse people who lived in them. In early 20th century America industrialization and the influx of immigrants and rural migrants into urban centers fostered a certain representation of and distaste for cities and their inhabitants. The dominant discourse was one of containment through utopian planning and violent reshaping often reflected in both policy making and writings about cities during this time. Yet as Daniela Kukrechtov identifies urban literature also reveals voices that challenged that narrative. *Unplanned Cities in Modern American Poetry* shows how the formally innovative works of five poets Jean Toomer William Carlos Williams Hart Crane Frank O'Hara and Gwendolyn Brooks worked against anti urban discourse. Their works displayed a love for disorderly cityscapes and the actual urbanites who inhabit them promoting the radical idea that cities were for people while revealing the extreme dystopian utopian discourses that helped create and maintain divisions and disparities. Kukrechtov argues that besides offering a radical critique these poets also used their poetry to imagine the mental and emotional attitudes of urban dwellers toward their environment. She therefore offers the urban ecocritical approach often missing in literary analyses of modern American poetry. Simultaneously the lyrical and socially engaged imagination in these works that is the human implications of various plans designs and policies that helped create the modern American city represent a voice often unheard in urban studies and its history. *Transition*, 1927 *The Nation*, 1916 *The Golden Book Magazine* Frederica Pisek Field, Mary Elting, 1925 **Eastern Nights - and Flights: A Record of Oriental Adventure** Alan Bott, 2019-12-13 In *Eastern Nights and Flights: A Record of Oriental Adventure* Alan Bott masterfully weaves together personal narrative and travelogue revealing a vibrant tapestry of experiences across the East. His prose is rich and evocative capturing the essence of bustling bazaars serene landscapes and the multifaceted cultures encountered during his escapades. The book is marked by a keen observational style reminiscent of classic explorers yet infused with Bott's wry humor and candid reflections situating it within the mid 20th century travel literature context that sought to understand and present the East through Western eyes while critiquing the colonial attitudes of the time. Alan Bott a seasoned journalist and travel writer drew upon his extensive journeys and keen interest in cultural exchange to pen this book. With roots in a post war Britain eager to rediscover the world Bott's adventures speak to a generation yearning for connection beyond the confines of their own experience. His unique perspective as both an observer and participant grants readers deeper insight into the societal dynamics at play in a rapidly changing East informed by the personal struggles and triumphs of his own travels. *Eastern Nights and Flights* is a compelling read for anyone fascinated by adventure culture and the human experience. It offers an engrossing account that transcends mere travelogue urging readers to engage with the histories and narratives that shape our world. Readers seeking a thoughtful exploration of the East through the eyes of an astute traveler will find Bott's work to be both enlightening and invigorating. *The American Review of Reviews* Albert Shaw, 1916 **American Monthly Review of Reviews** Albert Shaw, 1916 *The American Review of Reviews*, 1916
