Stand Off At Standing Rock:

Standoff at Standing Rock Patricia Calvert, 2001 Parallel biographies of Sioux leader Sitting Bull and Indian Agent James McLaughlin show how the representatives of their two nations came into conflict as their cultures clashed Standoff Jacqueline Keeler, 2021-03-30 A powerful illuminating book LOUISE ERDRICH author of *The Night Watchman* Native young people and elders pray in sweat lodges at the Oc ti Sak win camp the North Dakota landscape outside blanketed in snow In Oregon white men and women in army surplus and western gear some draped in the American flag gather in the buildings of the Malheur Wildlife Refuge The world witnessed two standoffs in 2016 the Standing Rock Sioux Tribe s protest against an oil pipeline in North Dakota and the armed takeover of Oregon s Malheur Wildlife Refuge led by the Bundy family These events unfolded in vastly different ways from media coverage to the reactions of law enforcement In *Standoff* Jacqueline Keeler examines these episodes as two sides of the same story that created America and its deep rooted cultural conflicts

Standoff at High Noon Bill Markley, Kellen Cutsforth, 2021-10-22 In *Standoff at High Noon* the sequel to *Old West Showdown* coauthors Kellen Cutsforth and Bill Markley again investigate ten well known controversial stories from the Old West Through their opposing viewpoints learn more about notorious figures and infamous events including the controversial death of Davy Crockett at the Alamo the life and death of Sacagawea who assisted Lewis and Clark on their Corps of Discovery Expedition the tragic fate of the Donner Party snowbound in the Sierra Nevada the assassination of Wild Bill Hickok Arizona s Lost Dutchman Mine and the controversy over Butch Cassidy s death in South America No matter whose side you are on there s always something new to discover about the mythic Old West *Shakespeare in the Post Colonies* Amrita Dhar, Amrita Sen, 2025-06-26 *Shakespeare in the Post Colonies* provides a wide ranging examination of engagements with and adaptations of Shakespeare in regions that were once under European colonial rule Arguing for the Post Colonies as a distinct category within Global Shakespeares this volume explores the reality of 21st century Shakespeares in geographies of post colonial and postcolonial inheritance such as continental Africa Australasia the Arab world the Indian subcontinent East Asia and the Americas As former colonies in Asia and Africa cross fifty and even seventy years of political independence contributors re examine the presence of Shakespeare in marginalised or politically disenfranchised communities interrogating how Shakespeare intersects with the internal and global power dynamics of post independence nations The essays cover a rich array of genres ranging from theatrical performances translations and cinematic adaptations to classroom strategies They turn to texts that have often gone ignored and give voice to Shakespeare appropriations by subaltern groups Essays address questions of race gender nationality indigeneity caste and class shedding new light on the diverse range of contemporary Shakespeare engagements across the global Post Colonies **Building Something Better** Stephanie A. Malin, Meghan Elizabeth Kallman, 2022-04-15 As the turmoil of interlinked crises unfolds across the world from climate change to growing inequality to the rise of authoritarian governments social scientists examine what is happening and why

Can communities devise alternatives to the systems that are doing so much harm to the planet and people Sociologists Stephanie A Malin and Meghan Elizabeth Kallman offer a clear accessible volume that demonstrates the ways that communities adapt in the face of crises and explains that sociology can help us understand how and why they do this challenging work Tackling neoliberalism head on these communities are making big changes by crafting distributive and regenerative systems that depart from capitalist approaches The vivid case studies presented range from activist water protectors to hemp farmers to renewable energy cooperatives led by Indigenous peoples and nations Alongside these studies Malin and Kallman present incisive critiques of colonialism extractive capitalism and neoliberalism while demonstrating how sociology's own disciplinary traditions have been complicit with those ideologies and must expand beyond them Showing that it is possible to challenge social inequality and environmental degradation by refusing to continue business as usual Building Something Better offers both a call to action and a dose of hope in a time of crises **Not Just Green, Not Just White**

Mary E. Mendoza, Traci Brynne Voyles, 2025-02 Not Just Green Not Just White brings together a group of diverse contributors to explore the rich intersections between race and environment Together these contributors demonstrate that the field of environmental history with its core questions and critical engagement with the nonhuman world provides a fertile context for understanding racism and ongoing colonialism as power structures in the United States Earlier historiography has defined environmental history as the study of the changing relationships between humans and the environment or nature This volume aims to redefine the field arguing that neither humans nor environment is a monolithic actor in any given story Both humans and the environment are diverse and often the environment causes conflict between and among peoples leaving unequal access and power in its wake Just as important these histories often reveal how despite unequal power those who carry less privilege still persist Together these essays demonstrate the promise of the field of environmental history and reveal how when practitioners in the field decide to move away from green and white topics they will be able to explain much more about our collective past than anyone ever imagined **Invisible Borders in a Bordered World** Alexander C.

Diener, Joshua Hagen, 2022-09-02 This book critically challenges the usual territorial understanding of borders by examining the often messy internal transborder ambiguous and in between spaces that co exist with traditional borders By considering those less visible aspects of borders the book develops an inclusive understanding of how contemporary borders are structured and how they influence human identity mobility and belonging The introduction and conclusion provide theoretical and contextual framing while chapters explore topics of global labor and refugees unrecognized states ethnic networks cyberspace transboundary resource conflicts and indigenous and religious spaces that rarely register on conventional maps or commonplace understandings of territory In the end the volume demonstrates that despite being invisible on most maps these borders have a very real material and tangible presence and consequences for those people who live within alongside and across them **Handbook of the Sociology of Racial and Ethnic Relations** Pinar Batur, Joe R.

Feagin,2018-06-11 The study of racial and ethnic relations has become one of the most written about aspects in sociology and sociological research In both North America and Europe many traditional cultures are feeling threatened by immigrants from Latin America Africa and Asia This handbook is a true international collaboration looking at racial and ethnic relations from an academic perspective It starts from the principle that sociology is at the hub of the human sciences concerned with racial and ethnic relations

Not "A Nation of Immigrants" Roxanne Dunbar-Ortiz,2021-08-24 Debunks the pervasive and self congratulatory myth that our country is proudly founded by and for immigrants and urges readers to embrace a more complex and honest history of the United States Whether in political debates or discussions about immigration around the kitchen table many Americans regardless of party affiliation will say proudly that we are a nation of immigrants In this bold new book historian Roxanne Dunbar Ortiz asserts this ideology is harmful and dishonest because it serves to mask and diminish the US s history of settler colonialism genocide white supremacy slavery and structural inequality all of which we still grapple with today She explains that the idea that we are living in a land of opportunity founded and built by immigrants was a convenient response by the ruling class and its brain trust to the 1960s demands for decolonialization justice reparations and social equality Moreover Dunbar Ortiz charges that this feel good but inaccurate story promotes a benign narrative of progress obscuring that the country was founded in violence as a settler state and imperialist since its inception While some of us are immigrants or descendants of immigrants others are descendants of white settlers who arrived as colonizers to displace those who were here since time immemorial and still others are descendants of those who were kidnapped and forced here against their will This paradigm shifting new book from the highly acclaimed author of An Indigenous Peoples History of the United States charges that we need to stop believing and perpetuating this simplistic and a historical idea and embrace the real and often horrific history of the United States

Voices of Wounded Knee William S. E. Coleman,2001-01-01 In Voices of Wounded Knee William S E Coleman brings together for the first time all the available sources Lakota military and civilian on the massacre of 29 December 1890 He recreates the Ghost Dance in detail and shows how it related to the events leading up to the massacre Using accounts of participants and observers Coleman reconstructs the massacre moment by moment He places contradictory accounts in direct juxtaposition allowing the reader to decide who was telling the truth

Geography in the 21st Century Jayson J. Funke,Waquar Ahmed,Ipsita Chatterjee,Stephen M. McCauley,2025 These 40 chronologically arranged entries examine the key events that have most profoundly shaped global society in the opening decades of the 21st Century

Environmental Justice in a Moment of Danger Julie Sze,2020-01-07 Let this book immerse you in the many worlds of environmental justice Naomi Klein We are living in a precarious environmental and political moment In the United States and in the world environmental injustices have manifested across racial and class divides in devastatingly disproportionate ways What does this moment of danger mean for the environment and for justice What can we learn from environmental justice struggles Environmental Justice in a Moment

of Danger examines mobilizations and movements from protests at Standing Rock to activism in Puerto Rico in the wake of Hurricane Maria Environmental justice movements fight survive love and create in the face of violence that challenges the conditions of life itself Exploring dispossession deregulation privatization and inequality this book is the essential primer on environmental justice packed with cautiously hopeful stories for the future

The RAVEN Essays John Borrows, Dawn Hoogeveen, Max Ritts, Sue Smitten, 2025-05-31 Named after the Respecting Aboriginal Values and Environmental Needs RAVEN nonprofit organization The RAVEN Essays is an anthology that celebrates a decade of prize winning student essays Since 2012 RAVEN has awarded an annual essay prize to honour students who champion the vital importance of Indigenous rights and self determination both in Canada and globally The essays featured in this collection highlight exceptional student work while reflecting on the evolving relationship between Indigenous politics and academia From issues like fishing rights and the Trans Mountain Pipeline to challenges of sexism and conservation policy these essays capture a transformative period in Indigenous struggles offering insights that resonate far beyond the Canadian settler state The anthology also includes contributions from prominent scholars such as Glen Coulthard Dara Culhane Michael Fabris Sarah Hunt and Heather Dorries Five complementary essays explore various aspects of structural change institutional constraints and broader commitments to Indigenous knowledge within university settings Aimed at readers in Indigenous law environmental studies anthropology and geography The RAVEN Essays is a book created by students for students and by academics for the academy Together the contributors reflect on the powerful formation and enactment of Indigenous law environmental stewardship place based knowledge pedagogy and literacy both within the academy and in the broader community across land water and culture

Voting in Indian Country Jean Reith Schroedel, 2020-09-11 Voting in Indian Country uses conflicts over voting rights as a lens for understanding the centuries long fight for Native self determination Among the American public there is a collective amnesia about the U S government s shameful policies toward the continent s original inhabitants and their descendants Only rarely such as during the Wounded Knee standoff in the 1970s and the recent Dakota Access Pipeline protests do Native issues reach the public consciousness But even during those times there is little understanding of historical context of the history of promises made and broken over seven generations that shape current events Voting in Indian Country uses conflicts over voting rights as a lens for understanding the centuries long fight for Native self determination Weaving together history politics and law Jean Reith Schroedel provides a view of this often ignored struggle for social justice from the ground up Differentiating this volume from other voting rights books is its use of ethnographic data including the case study of a county with a population evenly split between whites and Native Americans as well as oral histories of the people who have chosen to fight for voting rights The stories of these lawyers activists and plaintiffs illuminate both the complexity and the vividness of their experiences on the front lines and their understanding of a connection to broader Native struggles for self determination both to control the lands and resources promised to them in

perpetuity through treaties and to freely exercise the political rights and liberties promised to all Americans

Climate Change, Religion, and our Bodily Future Todd LeVasseur, 2021-07-13 This book explores the interface of bodies and religion by investigating the impacts human induced global warming will have on the embodied and performed practices of religion in ecologies of place By utilizing analytical insights from religion and nature theory posthumanism queer ecologies ecological animisms indigenous knowledges material feminisms and performance studies the book advocates for a need to update how religious studies theorizes bodies and religion It does so by in the first half of the book advocating for religious studies as a field and the academy as a whole to take the ongoing and deleterious future impacts of climate change seriously to re member that those laboring as scholars in religious studies and the communities they study have always been bodies in material bio ecological places and to let this inform the questions religious studies scholars ask The book argues that this will lead to very different forms of engaged liberatory scholarship that demands a different type of scholarship and public advocacy for resilience in the face of climate change The second half of the book offers case study examples of how scholars may better engage religious bodies within petrocultures while attending to new emerging materialist posthuman assemblages of religious bodies This book will be of interest to those in religious studies the environmental humanities and those working at the interface of the body and the natural world

The Conservation Constitution Kimberly K. Smith, 2019-10-25 Over the course of the twentieth century the United States emerged as a global leader in conservation policy negotiating the first international conservation treaties pioneering the idea of the national park and leading the world in creating a modern environmental regulatory regime And yet this is a country famously committed to the ideals of limited government decentralization and strong protection of property rights How these contradictory values have been reconciled not always successfully is what Kimberly K Smith sets out to explain in *The Conservation Constitution* a book that brings to light the roots of contemporary constitutional conflict over environmental policy In the mid nineteenth century most Progressive Era conservation policies would have been considered unconstitutional Smith traces how between 1870 and 1930 the conservation movement reshaped constitutional doctrine to its purpose how specifically courts and lawyers worked to expand government authority to manage wildlife forest and water resources and pollution Her work which highlights a number of important Supreme Court decisions often overlooked in accounts of this period brings the history of environmental management more fully into the story of the US Constitution At the same time illuminating the doctrinal innovation in the Progressives efforts her book reveals the significance of constitutional history to an understanding of the government s role in environmental management

Power Lines Sanya Carley,David Konisky,2025-10-13 On American energy and its persisting power to destroy In the United States the promise of a green energy future is complicated by its realities The country s legacy energy systems are decrepit the rollout of new technologies is unequal and piecemeal households find themselves increasingly without reliable or affordable access and Americans are excluded from the decisions that shape their energy futures Having power in America has become an exercise in race class and wealth in more ways than one Power Lines is a sweeping portrait of American energy in the twenty first century rendered in terms of its increasing and inevitable human costs Coal miners in West Virginia lose their livelihoods as energy markets change historically marginalized households cannot easily access new technologies children in sacrifice zones adjacent to mineral mining sites suffer health problems and limited resources and cities and towns are burdened from the production of alternative energies Sanya Carley and David Konisky show current challenges and an uncertain future of

America's greatest policy imperative The result is not only sobering but also essential for planning and pursuing a clean energy transition that improves on the errors of the past
