Ameena Al Rasheed Nayel Staci Gem Scheiwiller Francesco L Sinatora Zeinab Ghasemi Tari **Humor and Moroccan Culture** Matthew Helmke, 2007 This project started as a language learning experiment Matthew Helmke was sitting in a cafe with a Moroccan having a discussion in Moroccan Arabic The friend told a joke and it was quickly discovered that vocabulary alone would not insure an understanding of humor This prompted a question What did I miss In this book Matthew Helmke explores the hidden aspects of Moroccan culture These are the things that Moroccans know inherently without being taught The result is an intriguing look through the eyes of an American trying to make sense of Moroccan culture **Universals in Comparative Morphology** Jonathan David Bobaljik, 2012-09-28 An argument for and account of linguistic universals in the morphology of comparison combining empirical breadth and theoretical rigor This groundbreaking study of the morphology of comparison yields a surprising result that even in suppletion the wholesale replacement of one stem by a phonologically unrelated stem as in good better best there emerge strikingly robust patterns virtually exceptionless generalizations across languages Jonathan David Bobaljik describes the systematicity in suppletion and argues that at least five generalizations are solid contenders for the status of linguistic universals The major topics discussed include suppletion comparative and superlative formation deadjectival verbs and lexical decomposition Bobaljik's primary focus is on morphological theory but his argument also aims to integrate evidence from a variety of subfields into a coherent whole In the course of his analysis Bobaljik argues that the assumptions needed bear on choices among theoretical frameworks and that the framework of Distributed Morphology has the right architecture to support the account In addition to the theoretical implications of the generalizations Bobaljik suggests that the striking patterns of regularity in what otherwise appears to be the most irregular of linguistic domains provide compelling evidence for Universal Grammar The book strikes a unique balance between empirical breadth and theoretical detail The phenomenon that is the main focus of the argument suppletion in adjectival gradation is rare enough that Bobaljik is able to present an essentially comprehensive description of the facts at the same time it is common enough to offer sufficient variation to explore the question of universals over a significant dataset of more than three hundred languages **Register of the University of California** University of California (1868-1952), 1955

Mabrouk George Nicolas El-hage, Ph.d., George Nicolas El-Hage Ph D, 2016-03-22 Mabrouk Congratulations You have chosen to study Arabic one of the most beautiful musical and enduring Classical languages of the world This book is intended to be used as a primary textbook and consists of two parts the primary textbook Part One and a secondary reader which contains The Story of Sami and Warda Part Two Downloadable audio files are available for Part Two Part One incorporates the lessons of Part Two Together the two parts of the textbook provide a complete course in Arabic at both the elementary and intermediate levels However Mabrouk can also be used to supplement any textbook already adopted by a language program or department The book can serve as a comprehensive workbook due to its unprecedented number of exercises and practice material available for students to sharpen their skills The book focuses on proficiency in all of the four language skills listening speaking reading and writing The emphasis is on both fluency and accuracy the two most important goals for any foreign language student In this book lessons are presented in a diversified way to keep students interested focused and productive Students are exposed to a generous number of practical applications for every grammatical rule yet the complex and multiple rules that govern the Arabic language are introduced in a very simplified and clear way that is

direct and intentionally made easy All you need to know about Arabic grammar rules and application is presented here and explained in a language easy to understand and use The book also focuses on vocabulary building and usage of the most commonly used words today As such Mabrouk becomes an indispensable book for any dedicated teacher and serious student of Arabic Students and teachers alike have all of the supplementary practice material they need for a complete course of study at both the elementary and intermediate levels *Asian and African Studies* ,2003 Rejoice, Dear Zion! Magnar Kartveit,2013-07-15 The phrase Daughter of Zion is in recent Bible translations often rendered Daughter Zion The discussion behind this change has continued for decades but lacks proper linguistic footing Parlance in grammars dictionaries commentaries and textbooks is often confusing The present book seeks to remedy this defect by treating all relevant expressions from a linguistic point of view To do this it also discusses the understanding of Hebrew construct phrases and finds that while there is a morphological category of genitive in Akkadian Ugaritic and Arabic Hebrew Aramaic and Syriac do not display it The use of this term as a syntactical category is unfortunate and the term should be avoided in Hebrew grammar Metaphor theory and the use of irony are also tools in the discussion of the phrases As a result of the treatment the author finds that there are some Hebrew construct phrases where nomen regens describes the following nomen rectum and the description may be metaphorical in some cases also ironical This seems to be the case with Daughter of Zion and similar phrases This understanding calls for a revision of the translation of the phrases and new translations are suggested
