Standard Gardening Practice For Southern:

Civilising Grass Jonathan Cane, 2019-07-01 Civilising Grass is a socio cultural analysis of the lawn on the South African highveld exploring the complex relationship between landscape and power in the country's colonial modernist and post apartheid eras Drawing from eco criticism queer theory art history and postcolonial studies this book offers a lively and provocative reading of texts and illustrations to reveal the racial and gendered aspects of natural environments It argues that the lawn an ordinary and often overlooked feature of South African everyday life is neither natural nor innocent Rather like other colonial landscapes the lawn functions as a site of commonplace violence of oppression dispossession and segregation This book explores an eclectic archive of artistic literary and architectural lawns between 1886 and 2017 analysing poems maps gardening blogs adverts ethnographies and ephemera as well as literature by Koos Prinsloo Marlene van Niekerk and Ivan Vladislavic In addition Civilising Grass includes colour reproductions of lawn artworks by David Goldblatt Lungiswa Gqunta Pieter Hugo Anton Kannemeyer Sabelo Mlangeni Moses Tladi and Kemang Wa Lehulere Examination of these and other works reveals the organic relationship between lawn and wildness and between lawn and human non human actors thereby providing rich and unexpected insights into South African society past and present

The book presents an argument that student lives are entangled in complex social-spatial relations and processes that extend across family, neighbourhood and peer associations which are largely misrecognised in educational policy and practice. The book is relevant to understanding the role of policy, curriculum and pedagogy in addressing the educational performance of working-class youth.
