Standardizing Written English Amy J. Devitt, 1987

Standardizing Written English Amy J. Devitt, 2006-02-13

Professor Devitt offers a new view of the linguistic process of standardization the movement of specific language features towards uniformity Drawing on theoretical arguments and empirical data she examines the way in which linguistic conformity develops out of variation and the textual and social factors that influence this process After defining and clarifying the general theoretical issues involved the author takes as a specific case study the standardization of written English in Scotland in the sixteenth and seventeenth centuries and shows that standardization is a gradual process that it occurs at significantly different rates and times in different genres that it encompasses periods of great variation and that it occurs concurrently with sociopolitical shifts The interrelationship of linguistic features genres and social pressures shape the nature and direction of standardization

Literature and the Scottish Reformation David George Mullan,2016-12-05 Throughout the twentieth century Scottish literary studies was dominated by a critical consensus that critiqued contemporary anti Catholic by advancing a re reading of the Reformation This consensus understood that Scotland s rich medieval culture had been replaced with an anti aesthetic

tyranny of life and letters As a result Scottish literature has consistently been defined in opposition to the Calvinism to which it frequently returns Yet as the essays in this collection show such a consensus appears increasingly untenable in light both of recent research and a more detailed survey of Scottish literature This collection launches a full scale reconsideration of the series of relationships between literature and reformation in early modern Scotland Previous scholarship in this area has tended to dismiss the literary value of the writing of the period largely as a reaction to its regular theological interests Instead the essays in this volume reinforce recent work that challenges the received scholarly consensus by taking these interests seriously This volume argues for the importance of this religiously orientated writing through the adoption of a series of interdisciplinary approaches Arranged chronologically the collection concentrates on major authors and texts while engaging with a number of contemporary critical issues and so highlighting for example writing by women in the period It addresses the concerns of historians and theologians who have routinely accepted the established reading of this period of literary history in Scotland and offers a radically new interpretation of the complex relationships between literature and religious reform in early modern Scotland
