The Hermeticians Guide To The Planets Signs And Houses:

The Hermetician's Guide to the Planets, Signs and Houses Stanley Kustesky, 1981-05 *The Hermetic System of Astrology* Dennis W. Sutton, David S. Braumann, 1996 *The hermetic system of astrology*, 1996 Hermetic Astrology Robert Powell, 2006 This book starts with a meticulous explanation of terminology used in astronomy and astrology This can be considered as a splendid example of how to explain strictly scientific notions to readers who are not necessarily skilled in the exact sciences From an astronomical point of view the most interesting part of the work is the presentation of the old Egyptian world system which the author concludes was the same as the system of Tycho Brahe 1546 1601 He considers this astronomical system not just as a transitory historical conception but as something which possesses permanent value The author's deep historical studies made it possible for him also to solve the problem of the interchange of Mercury and Venus something indicated many years ago by Rudolf Steiner This is an important achievement in the history of astronomy The main astrological finding of this book is that the zodiac of the stars sidereal zodiac as employed by the Babylonians Egyptians and ancient Greeks is the authentic zodiac Moreover the author promotes a new type of astrological chart hermetic chart for the conception birth and death of personalities under consideration in addition to the customary geocentric horoscope and in place of the heliocentric horoscope promoted by Willi Sucher 1902 1985 With the hermetic chart the author places a new tool in the hands of astrologers and opens up new possibilities for astrology as a science On this basis he develops his two laws of reincarnation illustrating them by striking examples These laws express themselves by way of certain planetary configurations coinciding at the moments of birth and death in successive incarnations He believes that with these laws the significance of the tropical zodiac is disproved This work of Robert Powell presenting a new astrological system is a valuable step in the development of a new wisdom of the stars in line with the ideas of Willi Sucher Willi Sucher's books and articles are full of charm deep in a spiritual sense representing a star wisdom in an embryonic state With this book by Robert Powell the ideas of Willi Sucher are born as an earthly reality and something new is brought into the world Professor Konrad Rudni_ki Astronomical Observatory Jagiellonian University Cracow Poland Planets in the Signs and Houses Bepin Behari, 2003-07-01 This book follows up on the foundation provided in Fundamentals of Vedic Astrology and delves into questions such as impulses likely to be generated by the planets in different signs and houses of the natal chart The author cuts through the obscurity of the centuries to present a clear and effective science with a deep psychological background and underpinning **Hermetic Astrology** Oliver St John, 2016-04-19 Hardbound dust jacket edition blue linen boards glossy cover laid end papers gold folio stamp on spine The primary aim of this book is to explain esoteric or magical astrology in a simple and concise way The veriest beginner will quickly gain an understanding of their natal horoscope while those already well versed in the subject will find here magical and esoteric applications for the art that rarely if ever appear in textbooks on astrology Here is a complete course in astrology covering astrological symbolism chart interpretation the dignities of signs
