Longacre,2013-11-21 In that *The Anatomy of Speech* Notions 1976 was the precursor to *The Grammar of Discourse* 1983 this revision embodies a third edition of some of the material that is found here The original intent of the 1976 volume was to construct a hierarchical arrangement of notional categories which find surface realization in the grammatical constructions of the various languages of the world The idea was to marshal the categories that every analyst regardless of theoretical bent had to take account of as cognitive entities The volume began with a couple of chapters on what was then popularly known as case grammar then expanded upward and downward to include other notional categories on other levels Chapters on discourse monologue and dialogue were buried in the center of the volume In the 1983 volume the chapters on monologue and dialogue discourse were moved to the fore of the book and the chapters on case grammar were made less prominent the volume was then renamed *The Grammar of Discourse* The current revision features more clearly than its predecessors the intersection of discourse and pragmatic concerns with grammatical structures on various levels It retains and expands much of the former material but

includes new material reflecting current advances in such topics as salience cline for discourse rhetorical relations paragraph structures transitivity ergativity agency hierarchy and word order typologies

Decolonizing the Colonial City Colin Clarke, 2006-08-31. Colin Clarke investigates the role of class, colour, race and culture in the changing social stratification and spatial patterning of Kingston, Jamaica since independence. He concludes with a comparison with the post colonial urban problems of South Africa and Brazil. Includes multiple maps produced and compiled using GIS.

Primo Carnera Joseph S. Page, 2014-01-10. At over six and a half feet tall and nearly 300 pounds, heavyweight champion Primo Carnera was a giant for his times, but today the Ambling Alp is too often written off as an unskilled oaf and a product of the mob dealings that plagued boxing during the 1930s. He may not have been a natural in the ring, but he worked as hard as any boxer to learn his craft, to be in top condition, and he repeatedly showed that he was tougher than nails. This biography details Carnera's early life and boxing career, his success as a fighter, as well as accusations of fight fixing, his strengths and limitations in the ring, and his later career as a wrestler.

"The Bigger They Are, the Harder They Fall" Paul G. J. O'Connell, Shang-Jin Wei, 1997. Recent empirical work has made headway in exploring the non-linear dynamics of deviations from the law of one price and purchasing power parity that are apt to arise from transaction costs. However, there are two important facets of this work that need improvement. First, the choice of empirical specification is arbitrary. Second, the data used are typically composite price indices which are subject to potentially serious aggregation biases. This paper examines the evidence for transport cost induced nonlinear price behavior within the U.S. We address both of the above shortcomings. First, we use a simple continuous time model to inform the choice of empirical specification. The model indicates that the behavior of deviations from price parity depends on the relative importance of fixed and variable transport costs. Second, we employ data on disaggregated commodity prices yielding a pure measure of the deviations from price parity. We find strong evidence of nonlinear reversion in these deviations. The nature of this reversion suggests that fixed costs of transportation are integral to an understanding of law of one price deviations.
