The Internationalisation of the 'Native

Labour' Question in Portuguese Late Colonialism, 1945-1962 José Pedro Monteiro, 2022-11-22 This volume addresses the ways the native labour question in the Portuguese late colonial empire in Africa became a recurrent topic of international and transnational debate and regulation after the Second World War As other European colonial empires were tentatively transforming their labour and social policies in the aftermath of the war the Portuguese Empire in Africa resisted significant changes in this domain preserving a strict dual labour regime As a result a growing number of individuals networks and institutions abroad engaged with labour and social realities in Portuguese African colonies giving origin to a series of instances of denunciation of labour related abuses Portuguese authorities responded to these initiatives by selectively engaging with international norms languages and mechanisms However as global decolonisation gained momentum international and transnational events and processes would significantly constrain Portuguese imperial and colonial decision making procedures with the aim of retaining the empire Therefore the native labour question became in its own right a crucial political and diplomatic element of the broader struggles over the meaning of Portuguese imperial legitimacy As this volume argues these historical processes are critical to properly understanding the history of Portuguese late colonialism and its protracted trajectory of decolonisation

History of Slavery Jeremy Black, 2011-08-18 A thought provoking and important book that raises essential issues crucial not only for understanding our past but also the present day In this panoramic history Jeremy Black tells how slavery was first developed in the ancient world and reaches all the way to the present in the form of contemporary crimes such as trafficking and bonded labour He shows how slavery has taken many forms throughout history and across the world from the uprising of Spartacus the plantations of the West Indies and the murderous forced labour of the gulags and concentration camps Slavery helped to consolidate transoceanic empires and helped mould new world societies such as America and Brazil Black charts the long fight for abolition in the nineteenth century looking at both the campaigners as well as the harrowing accounts of the enslaved themselves Slavery is still with us today and coerced labour can be found closer to home than one might expect
