Sleeping In A Field:

Sleeping in a Field Christopher D. Owens, 2001-05 At age 24 Dave Crider's life is at a crossroads and he is consumed by a deep and seemingly irresolvable angst. Nearly paralyzed by his existential fears, he seeks solace from cut and dried academia, a nagging boss, and a failing romantic relationship via excessive drinking, fantasies of exotic women, and his immersion into the rock and roll subculture. At the end of a very long and self-destructive semester, Dave embarks on a road trip in an attempt to regain some sense of balance in his off-kilter life. Little can he imagine the spiritual and emotional roller coaster ride that awaits him on this soul-searching journey. Set amidst a swirling backdrop of late 1970s hedonistic excess, Sleeping in a Field captures the confusion and youthful anxiety of the times in a poetic, fast-paced first-person narrative. **HEART SONGS** NATIONAL MAGAZINE, 1909 Advances in technology for the sleep field, An Issue of Sleep Medicine Clinics, E-Book Steven Holfinger, 2023-08-03 In this issue of Sleep Medicine Clinics, guest editor Dr. Steven Holfinger brings his considerable expertise to the topic of Advances in Technology for the Sleep Field. Boredom Experience and Associated Behaviors Augustin de la Peña, 2023-10-31 This book collects the lifelong research on boredom by American psychologist Augustin de la Peña 1942-2021. It focuses on the experience of boredom and other similar states including ennui, melancholy, laziness, interest, attention, and entertainment, and its associated behaviors. Offering an interdisciplinary chronicle of boredom from antiquity to the present, special attention is paid to its daily experience as a ubiquitous phenomenon that informs cultural and political actions that continue to shape our society. Dr. de la Peña describes the obsolescence of the Western Commonsense View of Reality to propose a Developmental Psychophysiological Approach to Reality, reconceptualizing boredom. The book theorizes the condition as both logical and emotional, an axis that has defined the sensibility of the modern era. This is a volume edited posthumously by Josefa Ros Velasco and Christian Parreno in homage to Augustin's work and his invaluable contribution to the establishment of the field of boredom studies.
