displaced refugees and to the permanent migration abroad of nearly 130 000 civilians With a focus on Sri Lanka this book explores the political economy of ethnic conflict and examines how rival political leaders are able to convince their ethnic group members to follow them into violent conflict Specifically it looks at how political leaders can influence and utilize changes in the level of economic liberalization in order to mobilize members of a certain ethnic group and in the case of Sri Lanka shows how ethnic mobilization drives can turn violent when minority ethnic groups are economically marginalized by the decisions that the majority ethnic group leaders make in order to stay in power Taking a political economy approach to the conflict in Sri Lanka this book is unique in its historical analysis and provides a longitudinal view of the evolution of both Tamil and Sinhalese ethnic drives As such this interdisciplinary study will be of interest to policy makers as well as academics in the field of South Asian studies political science sociology development studies political economy and security studies

Charred Lullabies E. Valentine Daniel,1996-11-11 How does an ethnographer write about violence How can he make sense of violent acts for himself and for his readers without compromising its sheer excess and its meaning defying core How can he remain a scholarly observer when the country of his birth is engulfed by terror These are some of the questions that engage Valentine Daniel in this exploration of life and death in contemporary Sri Lanka In 1983 Daniel walked into the ashes and mortal residue of the violence that had occurred in his homeland His planned project the study of women s folk songs as ethnohistory was immediately displaced by the responsibility that he felt had been given to him by surviving family members and friends of victims to recount beyond Sri Lanka what he had seen and heard there Trained to do fieldwork by staying in

one place and educated to look for coherence and meaning in human behavior what does an anthropologist do when he is forced by circumstances to keep moving searching for reasons he never finds How does he write an ethnography or an anthropography to use the author's term without transforming it into a pornography of violence In avoiding fattening the anthropography into prurience how does he avoid flattening it with theory The ways in which Daniel grapples with these questions and their answers instill this groundbreaking book with a rare sense of passion purpose and intellect **Liberal Peace In Question** Kristian Stokke, Jayadeva Uyangoda, 2011-01-01 The present book uses Sri Lanka's failed attempt at negotiating peace with the Liberation Tigers of Tamil Eelam to examine the politics of state and market reforms towards liberal peace Sri Lanka is seen as a critical case that demonstrates key characteristics and shortcomings of liberal peace vividly demonstrated by internationally facilitated elite negotiations and donor funded neoliberal development

Diminishing Conflicts in Asia and the Pacific Edward Aspinall, Robin Jeffrey, Anthony J. Regan, 2013 Since the publication of the 2005 Human Security Report scholars and policy makers have debated the causes interpretation and implications of what the report described as a global decline in armed conflict since the end of the Cold War Focusing on the Asia Pacific region this book analyses the causes and patterns of this decline In few regions has the apparent decline in conflict been as dramatic as in the Asia Pacific with annual recorded battle deaths falling in the range of 50 to 75 percent between 1994 and 2004 Drawing on a wide range of case studies this book looks at internal conflicts based on the mobilization of ethnic and nationalist grievances which have been the most costly in human lives over the last decade The book identifies structures norms practices and techniques that have either fuelled or moderated conflicts As such it is an essential read for students and scholars of international relations peace and conflict studies and Asian studies *The Separatist Conflict in Sri Lanka* Asoka Bandarage, 2008-11-19 The book provides a detailed historically based analysis of the origin evolution and potential resolution of the civil conflict in Sri Lanka over the struggle to establish a separate state in its Northern and Eastern provinces This conflict between the Sri Lankan government and the secessionist LTTE Liberation Tigers of Tamil Eelam is one of the world's most intractable contemporary armed struggles The internationally banned LTTE is considered the prototype of modern terrorism It is known to have introduced suicide bombing to the world and recently became the first terrorist organization ever to acquire an air force The iron law of ethnicity the assumption that cultural difference inevitably leads to conflict has been reinforced by the 9/11 attacks and conflicts like the one in Sri Lanka However the connections among ethnic difference conflict and terrorism are not automatic This book broadens the discourse on the separatist conflict in Sri Lanka by moving beyond the familiar bipolar Sinhala versus Tamil ethnic antagonism to show how the form and content of ethnicity are shaped by historical social forces It develops a multipolar analysis which takes into account diverse ethnic groups intra ethnic social class caste and other variables at the local regional and international levels Overall this book presents a conceptual framework useful for comparative global conflict analysis and resolution shedding

Volatile Social Movements and the Origins of Terrorism Christine Sixta Rinehart, 2013 Although many scholars have studied terrorism few scholars have ever studied terrorism from the aspect of its initial origins in social movements Not only is research concerning this phenomenon outdated but there has also been no consensus as to what causes terrorism Many contemporary terrorist organizations were once social movements that formed for a specific purpose using nonviolent tactics to accomplish their agenda Eventually terrorist tactics became the method of choice for these once peaceful social movements

Volatile Social Movements and the Origins of Terrorism The Radicalization of Change by Christine Sixta Rinehart focuses on why this transition occurred why did a peaceful social movement transition to a terrorist organization The case studies in this book include the Muslim Brotherhood the ETA the FARC and the LTTE The study focuses on the individual characteristics group dynamics and external forces that caused social movements to use terrorist tactics It is ascertained who made the decision to use terrorism and why and how that person or group of people ascended to a leadership position within the social movement After the person people time and place are found pertaining to the first decision to use terrorism Sixta Rinehart examines why terrorism became an attractive option for each social movement

Volatile Social Movements and the Origins of Terrorism asks a necessary question for scholars and researchers in counterterrorism and international policy Under what conditions do social movements resort to the use of terrorist tactics

Military Intervention and Secession in South Asia Anne N. Dos Santos, 2007-10-30 From Chechnya in Russia to Kashmir in India to the Basque region in Spain secessionist movements remain a serious threat to international security Despite the importance of this issue the causes that bring about

external military intervention in a secessionist war have not until now been adequately addressed In this book Dos Santos identifies the conditions that make international military intervention in a secessionist war more or less likely South Asia being fraught with secessionist movements Bangladesh Sri Lanka Kashmir and Punjab provides an ideal laboratory for the examination of this compelling issue Dos Santos argues that a shift in the balance of power between a secessionist group and its central government will lead to a preventive war on the secessionists by the central government In turn a preventive war of this nature may lead to an alliance between the secessionist group and an external power The stronger the alliance the greater the chances of an international military intervention Understanding the conditions under which secessionist movements expand become secessionist wars and invite international military intervention on behalf of the secessionists has strong policy implications It can go a long way toward guiding policymakers who may want to mitigate or avoid these conditions in their states Dos Santos views both states and secessionist groups as primary actors and she examines both the distribution of power among states and the balance of power between central government and groups within states

Sri Lanka's Remittance Economy Matt Withers, 2019-05-16 Employing a multiscale approach to migration outcomes spanning individual households local communities the macroeconomy and global patterns of capital accumulation this book demonstrates how cumulatively causal processes at structural institutional and agency levels have forged a precariously remittance dependent economy in Sri Lanka This book combines historical structural analysis with qualitative research to contend that remittance inflows have reinforced patterns of uneven development in Sri Lanka At the heart of this argument is a bold critique of remittance capital that inverts the migration development nexus which has come to dominate international policymaking with implications for Sri Lanka and other remittance economies throughout the Global South The author contends that temporary labour migration from Sri Lanka is a process of migration underdevelopment in which remittance inflows ubiquitously considered a key source of capital for developing economies are reinforcing of uneven development at multiple scales and produce unsustainable development outcomes Offering a uniquely systematic critique of remittances as a source of developmental capital for countries of origin such as Sri Lanka this book will be of interest to academics in the field of development studies migration studies and Asian studies
