The Social Philosophy of Sri Aurobindo Ram Nath Sharma,1980 On the Indian philosopher Aurobindo Ghose 1872 1950

The Making of Contemporary Indian Philosophy Daniel Raveh,Elise Coquereau-Saouma,2023-01-31 This book engages in a dialogue with Krishnachandra Bhattacharyya K C Bhattacharyya KCB 1875 1949 and opens a vista to contemporary Indian philosophy KCB is one of the founding fathers of contemporary Indian philosophy a distinct genre of philosophy that draws both on classical Indian philosophical sources and on Western materials old and new His work offers both a new and different reading of classical Indian texts and a unique commentary of Kant and Hegel The book re introduces KCB s philosophy identifies the novelty of his thinking and highlights different dimensions of his oeuvre with special emphasis on freedom as a concept and striving extending from the metaphysical to the political or the postcolonial Our contributors aim to decipher KCB s distinct vocabulary demand feeling alternation They revisit his discussion of Rasa aesthetics spotlight the place of the body in his phenomenological inquiry toward the subject as freedom situate him between classics Abhinavagupta and thinkers inspired by his thought Daya Krishna and discuss his lectures on S khya and Yoga rather than projecting KCB as usual solely as a Ved nta scholar Finally the contributors seek to clarify if and how KCB s philosophical work is relevant to the discourse today from the problem of other minds to freedoms in the social and political spheres This book will be of interest to academics studying Indian and comparative philosophy philosophy of language and mind phenomenology without borders and political and postcolonial philosophy

Contemporary Issues in Philosophy, Culture, and Value Bhaskar Bhattacharyya,2024-01-15 This book presents an analysis of the contemporary issues of philosophy culture and value It provides insights from both Eastern and Western perspectives on these concepts showing that although there are divergent views on these aspects in those traditions there is ultimately commonality in their considerations of the aspects of harmony peace and unity which both traditions emphatically emphasise through cultural dialogue Sociology, Ideology and Utopia Chattopadhyaya,2021-11-01 This engaging wide ranging study in comparative social and political philosophy gives a well argued account of how ideological and even utopian views such as normative communication development and justice are

sociologically rooted It also shows how this fact has been reflected in the social history of Asian countries like India and China as well as some Western countries during the last two centuries To illustrate the underlying concepts reference is made to influential thinkers both from the East and West from Hegel and James Mill to Marx and Maozedong and from Gandhi to Rawls The author himself one of the major contemporary Indian philosophers offers arguments to show that the right version of cultural relativism is objective and judgeable Concrete case studies are cited indicating why even fundamental values like indivisible peace and our own green planet cannot be practically universalized Yet this work is a sustained plea for improvable understanding between the East and the West and the transcultural value orientation of different cultures

The Perennial Quest for a Psychology with a Soul Joseph Vrinte,2002-01-01 The subject matter of this book is so vast that it would be presumptuous to attempt to deal with comprehensively and it would be preposterous to pretend to a final solution to a set of ideas as comprehensive as these worldviews The author is aware that the contents of this comparative study may appear offensive to the followers of Sri Aurobindo He tries to stimulate a fruitful dialogue and evaluates this dialogue in a sympathetic manner when he refers to the intentions of both thinkers

Integral Economics Ronnie Lessem, Alexander Schieffer, 2016-05-23 Why on earth is economics perceived to come in only one or at best two different a cultural if not a moral guises There are real and many alternatives to the economic mainstream The trouble is of course that they are hidden from us In Integral Economics Ronnie Lessem and Alexander Schieffer pave the way for a sustainable approach to economics building on the richness of diverse economic approaches from all over the globe By introducing the most evolved economic perspectives and bringing them into creative dialogue they argue that neither individual enterprises nor wider society will be transformed for the better without a new economic

perspective Here they introduce a comprehensive framework based on the same Four Worlds model that is applied to enterprise and research in their earlier works Given the richness of even mainstream economic theory reviewed in this book let alone the variety of alternative approaches introduced it is frustrating that policymakers and business practitioners are impoverished by a lack of apparent economic choice between a seemingly failing capitalism and an already failed communism The villains of the piece in relation to this lack of choice are not so much the financial community and governments though they do have much to answer but the schools of economics and the business schools that have created the very social ethos the philosophical principles and the mathematical models that influence events Integral Economics is partly addressed to academics and students in those very schools who have either realized the error of their ways or less dramatically are curious to explore whether our businesses and communities could be run in a different way It will be welcomed by informed senior practitioners eager to understand the current rethink of economic theory and practice and to discover how to position themselves their organizations and their society within a new framework

Cultivating Gardens of God Ananta Kumar Giri, 2024-11-12 In self society religion and politics we are used to the language and discourse of Kingdom of God But in this God is presented as an omnipotent king who is also angry at slight deviation We get glimpses of such powerful and angry God in Old Testament as well as in many other religious traditions of the world In such a discourse and portrayal of God we fail to realize that God is mercy rahim karuna and compassion God is our ever awakened nurturer and He and She is continuously walking and meditating with us with mercy as well as firm challenges for self development mutual realizations and responsible cosmic engagement and participation The vision and discourse of Kingdom of God has many a time been confined within a logic of power where we are prone to valorize God s power in order to valorize our own power on Earth especially the logic of sovereignty at the level of self and society rather than realize God s mercy This book strives to transform this to Gardens of God
