St Pauls Cathedral:

St. Paul's Lecturer in Modern British History Arthur Burns, 2004-01-01 The present St Paul's Cathedral Christopher Wren's masterpiece is the fourth religious building to occupy the site Its location in the heart of the capital reflects its importance in the English church while the photographs of it burning during the Blitz forms one of the most powerful and familiar images of London during recent times This substantial and richly illustrated study published to mark the 1 400th anniversary of St Paul's presents 42 scholarly contributions which approach the cathedral from a range of perspectives All are supported by photographs illustrations and plans of the exterior and interior of St Paul's both past and present Eight essays discuss the history of St Paul's demonstrating the role of the cathedral in the formation of England's church and state from the 7th century onwards nine essays examine the organisation and function of the cathedral during the Middle Ages looking at for example the arrangement of the precinct the tombs the Dean's household during the 15th century the liturgy and the archaeology The remaining papers examine many aspects of Wren's cathedral including its construction fittings and embellishments its estates and income music and rituals its place in London its library its role in the book trade and its reputation A Short Account of St. Paul's Cathedral St. Paul's Cathedral (London, England), 1871 A Popular Description of St. Paul's Cathedral, 1827 **St. Paul's Cathedral from past to present** Silke Lübbert, 2007-05-21 Seminar paper from the year 2004 in the subject English Language and Literature Studies Culture and Applied Geography grade 2.7 University of Paderborn Institut für Anglistik course London the urban experience language English abstract When most people think of St Paul's Cathedral in London the image of Christopher Wren's magnificent classical church rises in their minds but there was a cathedral dedicated to St Paul long before the construction of Wren's cathedral This paper is going to show how St Paul's Cathedral became what it is today and what a church can be apart from a place for sermons Cathedrals have always played more than one role in the communities they serve Their central purpose is to bring people closer to God but over the centuries they have served as a focal point for trade as fortresses and sanctuaries in times of war and as vast status symbols reflections of wealth and power of the region in which they stand These functions take on an additional significance for St Paul's the cathedral of the capital city and also of the nation Today's Church belongs to the people of the nation For example every citizen can be married or have a funeral service in his or her parish church priests can marry couples without the presence of a civil official and the General Synod the Church of England's governing body is the only organisation outside Parliament that has the power to legislate Cathedrals are perhaps the ultimate reflection of this inclusiveness Unlike parish churches which exist to minister to the people of the local area in which they stand they are a route to God for the larger community a place of celebration and mourning where feelings can be shared and the sheer scale and beauty of the architecture services and music allows visitors to experience the serenity and spirituality that are an essential counterpoint to the bustle of everyday life **St. Paul's Cathedral**, 193? **St Paul's Cathedral** St. Paul's
