Catholicism and Native Americans in Early North America Kathleen Deagan, 2024-04-15 Catholicism and Native Americans in Early North America interrogates the profound cultural impacts of Catholic policies and practice in La Florida during the sixteenth and seventeenth centuries Catholicism and Native Americans in Early North America explores the ways in which the church negotiated the founding of a Catholic society in colonial America beginning in St Augustine Florida in 1565 Although the church was deeply involved in all aspects of daily life and institutional organization the book underscores the tensions inherent in creating and sustaining a Catholic tradition in an unfamiliar and socially diverse population Using new primary academic scholarship the contributors explore missionaries accommodations to Catholic practice in the process of conversion the ways in which social and racial differentiation were played out in the treatment of the dead Native literacy and the production of religious texts the impacts of differing conversion philosophies among various religious orders and the historical and theological backgrounds of Catholicism in sixteenth and seventeenth century America Bringing together insights from archaeology social history

Blanton, 2020-02-15 The focus of Conquistador's Wake is a decade long archaeological project undertaken at a place now known as the Glass Site located in Telfair County Georgia This spot near the town of McRae Georgia offers clues that place Hernando de Soto in Georgia via a different route than previously thought by historians and archaeologists Rare glass beads some of the only examples found outside Florida are among the rich body of evidence signaling Spanish interaction with the Native Americans along the Ocmulgee River An unusual number and variety of metal and glass artifacts identified by their distinct patterns and limited production are the calling cards of Soto and other early explorers As a meditation on both the production of knowledge and the implications of findings at the Glass Site Conquistador's Wake challenges conventional wisdom surrounding the path of Soto through Georgia and casts new light on the nature of Native American societies then residing in southern Georgia It also provides an insider's view of how archaeology works and why it matters Through his research Dennis Blanton sets out to explain the outcome of one of Georgia's and the region's most important archaeological projects of recent years He tells at the same time a highly personal story from the perspective of the lead archaeologist about the realities of the research process from initial problem formulation to the demands of fieldwork the collaborative process data interpretation and scholarly tribalism Native American Landscapes of St. Catherine's Island, Georgia David Hurst Thomas, 2008 **Blue Book for the Island of Jamaica** Jamaica, 1945 **Coastal Nature, Coastal Culture** Paul S.

Sutter, Paul M. Pressly, 2018-07-15 An essay collection exploring the history of 5 000 year relationship between human culture and nature on the Georgia coast One of the unique features of the Georgia coast today is its thorough conservation At first glance it seems to be a place where nature reigns But another distinctive feature of the coast is its deep and diverse human history Indeed few places that seem so natural hide so much human history In Coastal Nature Coastal Culture editors Paul S Sutter and Paul M Pressly have brought together work from leading historians as well as environmental writers and activists that explores how nature and culture have coexisted and interacted across five millennia of human history along the Georgia coast as well as how those interactions have shaped the coast as we know it today The essays in this volume examine how successive communities of Native Americans Spanish missionaries British imperialists and settlers planters enslaved Africans lumbermen pulp and paper industrialists vacationing northerners Gullah Geechee nature writers environmental activists and many others developed distinctive relationships with the environment and produced well defined coastal landscapes Together these histories suggest that contemporary efforts to preserve and protect the Georgia coast must be as respectful of the rich and multifaceted history of the coast as they are of natural landscapes many of them restored that now

The Life and Times of Mary Musgrove Steven C Hahn,2012-10-21 The story of Mary Musgrove 1700 1764 a Creek Indian English woman struggling for success in colonial society is an improbable one As a literate Christian entrepreneur and wife of an Anglican clergyman Mary was one of a small number of mixed blood Indians to achieve a position of prominence among English colonists Born to a Creek mother and an English father Mary s bicultural heritage prepared her for an eventful adulthood spent in the rough and tumble world of Colonial Georgia Indian affairs Active in diplomacy trade and politics affairs typically dominated by men Mary worked as an interpreter between the Creek Indians and the colonists although some argue that she did so for her own gains altering translations to sway transactions in her favor Widowed twice in the prime of her life Mary and her successive husbands claimed vast tracts of land in Georgia illegally as British officials would have it by virtue of her Indian heritage thereby souring her relationship with the colony s governing officials and severely straining the colony s relationship with the Creek Indians Using Mary s life as a narrative thread Steven Hahn explores the connected histories of the Creek Indians and the colonies of South Carolina and Georgia He demonstrates how the fluidity of race and gender relations on the southern frontier eventually succumbed to more rigid hierarchies that supported the region s emerging plantation system
