*Stable Witch* Bonnie Bryant, 2013-03-27 When Veronica diAngelo a rider at Pine Hollow Stables discovers that her stirrup leathers have been cut before an important hunter jumping exhibition everyone assumes that practical joker Stevie Lake had something to do with it After all Stevie recently served her friends pancakes made out of plaster of Paris and it s a well known fact that Stevie and the rest of The Saddle Club can t stand snooty Veronica diAngelo But would Stevie actually try to sabotage another rider and risk injuring her valuable Arabian If Stevie didn t cut Veronica s leathers then who did Is it the work of a witch at the stable And will The Saddle Club ever manage to clear Stevie s name [Language in the Trump Era](#)

Janet McIntosh, Norma Mendoza-Denton, 2020-09-03 Early in his campaign Donald Trump boasted that I know words I have the best words yet despite these assurances his speech style has sown conflict even as it has powered his meteoric rise If the Trump era feels like a political crisis to many it is also a linguistic one Trump has repeatedly alarmed people around the world while exciting his fan base with his unprecedented rhetorical style shock tweeting and weaponized words Using many detailed examples this fascinating and highly topical book reveals how Trump s rallying cries boasts accusations and mockery enlist many of his supporters into his alternate reality From Trump s relationship to the truth to his use of gesture to the anti immigrant tenor of his language it illuminates the less obvious mechanisms by which language in the Trump era has widened divisions along lines of class gender race international relations and even the sense of truth itself [The Witch Hunts](#)

Robert Thurston, 2013-11-26 Tens of thousands of people were persecuted and put to death as witches between 1400 and 1700 the great age of witch hunts Why did the witch hunts arise flourish and decline during this period What purpose did the persecutions serve Who was accused and what was the role of magic in the hunts This important reassessment of witch panics and persecutions in Europe and colonial America both challenges and enhances existing interpretations of the phenomenon Locating its origins 400 years earlier in the growing perception of threats to Western Christendom Robert Thurston outlines the development of a persecuting society in which campaigns against scapegoats such as heretics Jews lepers and homosexuals set the scene for the later witch hunts He examines the creation of the witch stereotype and looks at how the early trials and hunts evolved with the shift from accusatory to inquisitorial court procedures and reliance upon confessions leading to the increasing use of torture [The Witch Studies Reader](#)

Soma Chaudhuri, Jane Ward, 2025-02-21 Stories about witches are by their nature stories about the most basic and profound of human experiences healing sex violence tragedies aging death and encountering the mystery and magic of the unknown It is no surprise then that witches loom large in our cultural imaginations In academia studies of witches rarely emerge from scholars who are themselves witches and or embedded in communities of witchcraft practitioners The Witch Studies Reader brings together a diverse group of scholars practitioners and scholar practitioners who examine witchcraft from a critical decolonial feminist perspective that decenters Europe and departs from exoticizing and pathologizing writing on witchcraft in the global South

The authors show how witches are keepers of suppressed knowledges builders of new futures exemplars of praxis and theorists in their own right Throughout they account for the vastly different national political economic and cultural contexts in which the witch is currently being claimed and repudiated Offering a pathbreaking transnational feminist examination of witches and witchcraft that upends white supremacist colonial patriarchal knowledge regimes this volume brings into being the interdisciplinary field of feminist witch studies Contributors Maria Amir Ruth Asiimwe Bernadette Barton Ethel Brooks Shelina Brown Ruth Charnock Soma Chaudhuri Carolyn Chernoff Saira Chhibber Simon Clay Krystal Cleary Adrianna L Ernstberger Tina Escaja Laurie Essig Marcelitte Failla D Ferrett Marion Goldman Jaime Hartless Margaretha Haughwout Patricia Humura Apoorva Joshi Govind Kelkar Oliver Kellhammer Ay a Kurto lu Helen Macdonald Isabel Machado Brandy Renee McCann Dev Nathan Mary Jo Neitz Amy Nichols Belo Allison or AP Pierce Emma Quilty Anna Rogel Karen Schaller Jacquelyn Marie Shannon Shashank Shekhar Sinha Gabriella V Smith Nathan Snaza Shannon Hughes Spence Eric Steinhart Morena Tartari Nicole Trigg Katie Von Wald Tushabe wa Tushabe Jane Ward *Notes on the folk-lore of the Northern countries of England and the borders* William Henderson,1879 The Witch's Temptation Rory McCauley-Hayman,2021-06-01 Clover Harrison is a rare triple affinity witch After refusing an arranged marriage from her family she went to Oregon to run her great aunt s potion shop and teahouse There s a fearsome beast that all seers see in her future and Clover is driven to live her life to its fullest before she encounters the beast Stanton Bruinwald is looking for his Ursa the woman who will help him run his sleuth Even though he s starting his search for her a year or two before most Alpha bears do he feels the time is right All he needs is some direction Old friends and new come together in the third book of the T wisted Design Series *Tales of the Winter Wolf* R.J. Understanding the role of humans in environmental change is one of the most pressing challenges of the 21st century Environmental narratives written texts with a focus on the environment offer rich material capturing relationships between people and surroundings We take advantage of two key opportunities for their computational analysis massive growth in the availability of digitised contemporary and historical sources and parallel advances in the computational analysis of natural language We open by introducing interdisciplinary research questions related to the environment and amenable to analysis through written sources The reader is then introduced to potential collections of narratives including newspapers travel diaries policy documents scientific proposals and even fiction We demonstrate the application of a range of approaches to analysing natural language computationally introducing key ideas through worked examples and providing access to the sources analysed and accompanying code The second part of the book is centred around case studies each applying computational analysis to some aspect of environmental narrative Themes include the use of language to describe narratives about glaciers urban gentrification diversity and writing about nature and ways in which locations are conceptualised and described in nature writing We close by reviewing the approaches taken and presenting an interdisciplinary research agenda for future work The book is designed to be of interest to newcomers to the field and experienced researchers and set out in a way that it can be used as an accompanying text for graduate level courses in for example geography environmental history
