Harold Pinter Graham Saunders,2023-06-05 Harold Pinter provides an up to date analysis and reappraisal concerning the work of one of the most studied and performed dramatists in the world Drawing extensively from The Harold Pinter Archive at the British Library as well as reviews and other critical materials this book offers new insights into previously established views about his work The book also analyses and reappraises specific key historical and contemporary productions including a selection of Pinter s most significant screenplays In particular this volume seeks to assess Pinter s critical reputation and legacy since his death in 2008 These include his position as a political writer and political activist from disassociation and neutrality on the subject until relatively late in his career when his drama sought to explicitly address questions of political dissent and torture by totalitarian regimes The book revisits some familiar territories such as Pinter s place as a British absurdist and the role memory plays in his work but it also sets out to explore new territories such as Pinter s changing attitudes towards gender in the light of MeToo and queer politics and how in particular a play such as *The Caretaker* 1960 through several key productions has brought the issues of race into sharper focus Part of the Routledge Modern and Contemporary Dramatist series Harold Pinter provides an essential and accessible guide to the dramatists work

Literary Worlds and Deleuze contributes to debates on mimesis by offering an expressionist take on the matter of the generation of literary worlds in drama In examining postdramatic plays by Sarah Kane Martin Crimp Caryl Churchill and Laura Wade the book outlines a dynamic ontology of mimesis Rather than pertaining to a static ontology of being expressionist mimesis is generative and renews itself constantly without arriving at an entelechial end In exploring the fluxional field of forces and relations that underlie the order of representation expressionist mimesis is well suited to account for the ontologically uncertain realities of postdramatic theatre The concepts of expression and the event of sense Gilles Deleuze become part of a generative model that incorporates pre linguistic and supra conceptual constituents within the genesis of representation *Jonsonians: Living Traditions* Brian Woolland, 2017-07-12 This title was first published in 2003

Stoppard's recent and uncharacteristic foray into dramatic realism with *The Coast of Utopia* 2002 and *Rock n Roll* 2006 at which point the playwright seems to embrace the more straightforward rhetorical advantages of literary realism

The Oxford Companion to English Literature Dinah Birch, 2009-09-24 Written by a team of more than 150 contributors working under the direction of Dinah Birch and ranging in influence from Homer to the Mahabharata this guide provides the reader with a comprehensive coverage of all aspects of English literature
