Brown,1983 *The Studio* ,1905 Coventry: Medieval Art, Architecture and Archaeology in the City and its Vicinity Linda Monckton,2017-07-05 The British Archaeological Association s 2007 conference celebrated the material culture of medieval Coventry the fourth wealthiest English city of the later middle ages The nineteen papers collected in this volume set out to remedy the relative neglect in modern scholarship of the city s art architecture and archaeology as well as to encompass recent research on monuments in the vicinity The scene is set by two papers on archaeological excavations in the historic city centre especially since the 1970s and a paper investigating the relationships between Coventry s building boom and economic conditions in the city in the later middle ages Three papers on the Cathedral Priory of St Mary bring together new insights into the Romanesque cathedral church the monastic buildings and the post Dissolution history of the precinct derived mainly from the results of the Phoenix Initiative excavations 1999/2003 Three more papers provide new architectural histories of the spectacular former parish church of St Michael the fine Guildhall of St Mary and the remarkable surviving west range of the Coventry Charterhouse The high quality monumental art of the later medieval city is represented by papers on wall painting featuring the recently conserved Doom in Holy Trinity church on the little known Crucifixion mural at the Charterhouse and on a reassessment of the working practices of the famous master glazier John Thornton Two papers on a guild seal and on the glazing at Stanford on Avon parish church consider the evidence for Coventry as a regional workshop centre for high quality metalwork and glass painting Beyond the city three papers deal with the development of Combe Abbey from Cistercian monastery to country house with the Beauchamp family s hermitage at Guy s Cliffe and with a newly identified stonemasons workshop in the barn at Kenilworth Abbey Two further papers concern the architectural patronage of the earls and dukes of Lancaster in the 14th century at Kenilworth Castle and in the Newarke at Leicester Castle **Neo-Gothic Architecture in Mexico** Martin M. Checa-Artasu,2025-06-02 Neo Gothic architecture is a global phenomenon observed in Mexico from the 1850s to the mid 20th century even with current examples In Mexico there are more than 500 buildings with some neo Gothic element new parishes and churches large temples examples of exterior decorations beautiful sacred furniture and art inside the temples funerary elements at cemeteries graves mausoleums tombs and civil buildings mansions houses schools hospitals porticoes so on This architecture in Mexico spread in two ways through architecture teaching academies but also thanks to the

diffusion of bishops and priests who showed images and engravings for master builders stonemasons and other local artisans to copy Finally they built these buildings many times with the support of the parishioners Also the economic and political elites built mansions and houses in that style to show their wealth and financial and political power Something they also did in their tombs and pantheons since there are many built in that style A book on the characteristics agents and causes of the development of the neo Gothic style in Mexico is pioneering and the first of its kind It is a type of architecture extraordinarily little studied in Mexico A study of these characteristics would be of interest to a sector of the academy interested in the topics of history of architecture art studies on religion and culture in general This book covers a huge gap in knowledge about an architectural style widely spread worldwide and that is widely unknown in Mexico and Latin America and that today is already a cultural heritage to be protected disseminated and valued Studio Studies Ignacio Farías,Alex

Wilkie,2015-10-14 Consider the vast array of things around you from the building you are in the lights illuminating the interior the computational devices mediating your life the music in the background even the crockery furniture and glassware you are in the presence of Common to all these objects is that their concrete visual and technological forms were invariably conceived modelled finished and tested in sites characterised as studios Remarkably the studio remains a peculiar lacuna in our understanding of how cultural artefacts are brought into being and how creativity operates as a located practice Studio Studies is an agenda setting volume that presents a set of empirical case studies that explore and examine the studio as a key setting for aesthetic and material production As such Studio Studies responds to three contemporary concerns in social and cultural thought first how to account for the situated nature of creative and cultural production second the challenge of reimagining creativity as a socio materially distributed practice rather than the cognitive privilege of the individual and finally to unravel the parallels contrasts and interconnections between studios and other sites of cultural aesthetic and technoscientific production notably laboratories By enquiring into the operations topologies and displacements that shape and format studios this volume aims to demarcate a novel and important object of analysis for empirical social and cultural research as well to develop new conceptual repertoires to unpack the multiple ways studio processes shape our everyday lives
