Stairways To Heaven Vol 1 Judaism Christianity Islam:

Judaism, Christianity, and Islam: The Classical Texts and Their Interpretation, Volume II F. E. Peters, 2021-04-13 Invoking a concept as simple as it is brilliant F E Peters has taken the basic texts of the three related and competitive religious systems we call Judaism Christianity and Islam and has juxtaposed them in a topical and parallel arrangement according to the issues that most concerned all these children of Abraham Through these extensive passages and the author's skillful connective commentary the three traditions are shown with their similarities sometimes startlingly underlined and their well known differences now more profoundly exposed What emerges from this unique and ambitious work is a panorama of belief practice and sensibility that will broaden our understanding of our religious and political roots in a past that is by these communities definition still the present The hardcover edition of the work is bound in one volume and in the paperback version the identical material is broken down into three smaller but self contained books The second The Word and the Law and the People of God discusses the scriptures of the three faiths in various contexts exegetical and legal Throughout the work we hear an amazing variety of voices some familiar some not all of them central to the primary and secondary canons of their own tradition alongside the Scriptural voice of God are the words of theologians priests visionaries lawyers rulers and the ruled The work ends as does the same author's now classic Children of Abraham in what Peters calls the classical period that is before the great movements of modernism and reform that were to transform Judaism Christianity and Islam

The Monotheists: Jews, Christians, and Muslims in Conflict and Competition, Volume I F. E. Peters, 2009-04-11 The world's three great monotheistic religions have spent most of their historical careers in conflict or competition with each other And yet in fact they sprung from the same spiritual roots and have been nurtured in the same historical soil This book an extraordinarily comprehensive and approachable comparative introduction to these religions seeks not so much to demonstrate the truth of this thesis as to illustrate it Frank Peters one of the world's foremost experts on the monotheistic faiths takes Judaism Christianity and Islam and after briefly tracing the roots of each places them side by side to show both their similarities and their differences Volume I The Peoples of God tells the story of the foundation and formation of the three monotheistic communities of their visible historical presence Volume II The Words and Will of God is devoted to their inner life the spirit that animates and regulates them Peters takes us to where these religions live their scriptures laws institutions and intentions how each seeks to worship God and achieve salvation and how they deal with their own orthodox and heterodox and with others the goyim the pagans the infidels Throughout he measures but never judges one religion against the other The prose is supple the method rigorous This is a remarkably cohesive informative and accessible narrative reflecting a lifetime of study by a single recognized authority in all three fields The Monotheists is a magisterial comparison for students and general readers as well as scholars of the parties to one of the most troubling issues of today the fierce sometimes productive and often destructive competition among the world's monotheists the siblings called Jews Christians
