The Kremlin Letters David Reynolds, Vladimir Olegovich Pechatnov, 2018-01-01 A penetrating account of the dynamics of World War II's Grand Alliance through the messages exchanged by the Big Three Stalin exchanged more than six hundred messages with Allied leaders Churchill and Roosevelt during the Second World War In this riveting volume the fruit of a unique British Russian scholarly collaboration the messages are published and also analyzed within their historical context Ranging from intimate personal greetings to weighty salvos about diplomacy and strategy this book offers fascinating new revelations of the political machinations and human stories behind the Allied triumvirate Edited and narrated by two of the world's leading scholars on World War II diplomacy and based on a decade of research in British American and newly available Russian archives this crucial addition to wartime scholarship illuminates an alliance that really worked while exposing its fractious limits and the issues and egos that set the stage for the Cold War that followed Stalin's Correspondence with Churchill, Attlee, Roosevelt and Truman, 1941-45 Soviet Union. exporting Communism at gunpoint gambled incorrectly that they could win the Soviet premier's heart and mind through several excessive wartime aid gestures including the furnishing of atomic bomb materials to the Soviet regime. By 1945 American leaders had succeeded in their strategic goal of keeping Stalin and his Red Army in the war and hastening victory but failed in their efforts to purchase the Soviet premier's goodwill and commitment to postwar peace heralding the global Cold War and setting the stage for later U.S. martial aid programs to those resisting aggression abroad. In addition to its primary focus on the American leadership's perceptions of Stalin's strategic importance to the Allied war effort in the Second World War, this work also includes a detailed assessment of Roosevelt's Soviet Lend Lease program alongside U.S. President Ronald Reagan's later support for the Afghan Islamic guerrillas resisting Soviet occupation during the Soviet Afghan War of the 1980s and a comparison of both martial aid programs with Washington's recent revival of Lend Lease aid for the Ukrainian war effort. It offers today's American leaders and policymakers a chance to consult the lessons of history and apply them in the present.

The Iron Curtain Fraser J. Harbutt, 1988-10-13 It was forty two years ago that Winston Churchill made his famous speech in Fulton Missouri in which he popularized the phrase Iron Curtain. This speech according to Fraser Harbutt set forth the basic Western ideology of the coming East West struggle. It was also a calculated move within and a dramatic public definition of the Truman administration's concurrent turn from accommodation to confrontation with the Soviet Union. It provoked a response from Stalin that goes far to explain the advent of the Cold War a few weeks later. This book is at once a fascinating biography of Winston Churchill as the leading protagonist of an Anglo American political and military front against the Soviet Union and a penetrating re-examination of diplomatic relations between the United States Great Britain and the U.S.S.R. in the postwar years. Pointing out the Americocentric bias in most histories of this period Harbutt shows that the Europeans played a more significant part in precipitating the Cold War than most people realize. He stresses that the same pattern of events that earlier led America belatedly into two world wars namely the initial separation and then the sudden coming together of the European and American political arenas appeared here as well. From the combination of biographical and structural approaches a new historical landscape emerges. The United States appears at times to be the rather passive object of competing Soviet and British maneuvers. The turning point came with the crisis of early 1946 which here receives its fullest analysis to date when the Truman administration in a systematic but carefully veiled and still widely misunderstood reorientation of policy in which Churchill figured prominently led the Soviet Union into the political confrontation that brought on the Cold War.
