Stalin's Failure in China, 1924-1927 Conrad Brandt, 1958 *Stalin, Japan, and the Struggle for Supremacy over China, 1894-1945* Hiroaki Kuromiya, 2022-12-27 Stalin was a master of deception disinformation and camouflage by means of which he gained supremacy over China and defeated imperialism on Chinese soil This book examines Stalin s covert operations in his hunt for supremacy By the late 1920s Britain had ceded place to Japan as Stalin s main enemy in Asia By seducing Japan deeply into China Stalin successfully turned Japan s aggression into a weapon of its own destruction The book examines Stalin s covert operations from the murder of the Manchurian warlord Zhang Zuolin in 1928 and the publication of the forged Tanaka Memorial in 1929 to Stalin s hidden role in Japan s invasion of Manchuria in 1931 the outbreak of all out war between China and Japan in 1937 and Japan s defeat in 1945 In the shadow of these and other events we find Stalin and his secret operatives including many Chinese and Japanese collaborators most notably Zhang Xueliang and K moto Daisaku the self professed assassin of Zhang Zuolin The book challenges accounts of the turbulent history of inter war East Asia that have ignored or minimized Stalin s presence and instead exposes and analyzes Stalin s secret modus operandi modernized as hybrid war in today s Russia The book is essential for students and specialists of Stalin China the Soviet Union Japan and East Asia

Stalin's Failure in China Conrad Brandt (politologia), 1958 *Missionaries of Revolution* Clarence Martin Wilbur, Julie Lien-ying How, 1989 During the 1920s the Soviet Union made a determined effort to stimulate revolution in China sending several scores of military and political advisers there as well as arms and money to influence political developments The usual secrecy surrounding Soviet foreign intervention was broken when the Chinese government seized a mass of documents in a raid on the Soviet military headquarters in Peking in 1927 Missionaries of Revolution weaves together information gleaned from these documents with contemporary historical materials

Britain's Imperial Retreat from China, 1900-1931 Phoebe Chow, 2016-07-15 Britain s relationship with China in the nineteenth and early twentieth century is often viewed in terms of gunboat diplomacy unequal treaties and the unrelenting pursuit of Britain s own commercial interests This book however based on extensive original research demonstrates that in Britain after the First World War a combination of liberal Labour party pacifist missionary and some business opinion began to argue for imperial retreat from China and that this movement gathered sufficient momentum for a sympathetic attitude to Chinese demands becoming official Foreign Office policy in 1926 The book considers the various strands of this movement relates developments in Britain to the changing situation in China especially the rise of nationalism and the Guomindang and argues that contrary to what many people think the reassertion of China s national rights was begun successfully in this period rather than after the Communist takeover in 1949

Revolution and War Stephen M. Walt,2013-08-07 Revolution within a state almost invariably leads to intense security competition between states and often to war In *Revolution and War* Stephen M Walt explains why this is so and suggests how the risk of conflicts brought on by domestic upheaval might be reduced in the future In doing so he explores one of the basic questions of international relations What are the connections between domestic politics and foreign policy Walt begins by exposing the flaws in existing theories about the relationship between revolution and war Drawing on the theoretical literature about revolution and the realist perspective on international politics he argues that revolutions cause wars by altering the balance of threats between a revolutionary state and its rivals Each state sees the other as both a looming danger and a vulnerable adversary making war seem both necessary and attractive Walt traces the dynamics of this argument through detailed studies of the French Russian and Iranian revolutions and through briefer treatment of the American Mexican Turkish and Chinese cases He also considers the experience of the Soviet Union whose revolutionary transformation led to conflict within the former Soviet empire but not with the outside world An important refinement of realist approaches to international politics this book unites the study of revolution with scholarship on the causes of war
