The Psychology of Stalking J. Reid Meloy, 2001-05-15 The Psychology of Stalking is the first scholarly book on stalking ever published. Virtually every serious writer and researcher in this area of criminal psychopathology has contributed a chapter. These chapters explore stalking from social, psychiatric, psychological, and behavioral perspectives. New thinking and data are presented on threats, pursuit, characteristics, psychiatric diagnoses, offender/victim typologies, cyberstalking, false victimization syndrome, erotomania, stalking, and domestic violence, the stalking of public figures, and many other aspects of stalking, as well as legal issues. This landmark text is of interest to both professionals and other thoughtful individuals who recognize the serious nature of this ominous social behavior. First scholarly book on stalking ever published. Contributions from virtually all major researchers in the field. Discussion of what to do when being stalked. Uses examples from recent publicized cases.

**The Essential Mystery Lists** Roger M. Sobin, 2011-09-30 For the first time in one place Roger M. Sobin has compiled a list of nominees and award winners of virtually every mystery award ever presented. He has also included many of the best of lists by more than fifty of the most important contributors to the genre. Mr. Sobin spent more than two decades gathering the data and lists in this volume; much of that time he used to recheck the accuracy of the material he had collected. Several of the best of lists appear here for the first time in book form. Several others have been unavailable for a number of years. Of special note are Anthony Boucher's Best Picks for the Year. Boucher, one of the major mystery reviewers of all time, reviewed for The San Francisco Chronicle, Ellery Queen Mystery Magazine, and The New York Times. From these resources Mr. Sobin created Boucher's Best and Important Lists to Consider, lists that provide insight into important writing in the field from 1942 through Boucher's death in 1968. This is a great resource for all mystery readers and collectors. Winner of the 2008 Macavity Awards for Best Mystery Nonfiction.

Stalking Bran Nicol, 2006-11-15 It scares and titillates in such movies as The Hand That Rocks the Cradle and Basic Instinct. It violently ended the lives of legendary artists such as

Selena and John Lennon and thousands of people endure it daily in anonymity from ex lovers and strangers Stalking has been a fact of human society for a surprisingly long time yet it is only in the last two decades that the term stalking came into wide use throughout mass culture Bran Nicol traces here the history of stalking and chronicles how acts of extreme obsession have created a public fixation of their own This unprecedented study draws on a wealth of sources including forensic psychology films literature news reports and cultural theory to examine stalking as a behavior and a social phenomenon Moving from Samuel Richardson s *Clarissa* to *Fatal Attraction* and from Charles Dickens s *Our Mutual Friend* to *Taxi Driver* and *One Hour Photo* Nicol skillfully probes how stalking has pervaded our civilization for over two hundred years He then turns his focus to the role that stalking plays in the context of our contemporary media saturated culture posing provocative questions about the state of modern society Have interpersonal relations become increasingly intense or more perverse today Are we dealing with something truly new or is stalking simply the latest name for an age old form of social interaction Stalking also examines cases of deadly obsession with celebrities such as Jodie Foster and explores how such fixations are fueled by mass media and the Internet A wholly fascinating and groundbreaking investigation into one of the extreme consequences of our hyper connected age Stalking provides a thorough understanding of this disturbingly compelling abnormality
