Hutton, 2015-08-27 The cultural economy forms a leading trajectory of urban development and has emerged as a key facet of globalizing cities Cultural industries include new media digital arts music and film and the design industries and professions as well as allied consumption and spectacle in the city The cultural economy now represents the third largest sector in many metropolitan cities of the West including London Berlin New York San Francisco and Melbourne and is increasingly influential in the development of East Asian cities Tokyo Shanghai Hong Kong and Singapore as well as the mega cities of the Global South e.g. Mumbai Capetown and S o Paulo *Cities and the Cultural Economy* provides a critical integration of the burgeoning research and policy literatures in one of the most prominent sub fields of contemporary urban studies Policies for cultural economy are increasingly evident within planning development and place marketing programs requiring large resource commitments but producing on the evidence highly uneven results Accordingly the volume includes a critical review of how the new cultural economy is reshaping urban labour housing and property markets contributing to gentrification and to precarious employment formation as well as to broadly favorable

outcomes such as community regeneration and urban vitality The volume acknowledges the important growth dynamics and sustainability of key creative industries Written primarily as a text for upper level undergraduate and Masters students in urban economic and social geography sociology cultural studies and planning this provocative and compelling text will also be of interest to those studying urban land economics architecture landscape architecture and the built environment

Journal of Urban Design Criminalizing Women, 2nd Edition Gillian Balfour,Elizabeth Comack,2021-01-10T00:00:00Z Criminalizing women has become all too frequent in these neo liberal times Meanwhile poverty racism and misogyny continue to frame criminalized women s lives Criminalizing Women introduces readers to the key issues addressed by feminists engaged in criminology research over the past four decades Chapters explore how narratives that construct women as errant females prostitutes street gang associates and symbols of moral corruption mask the connections between women s restricted choices and the conditions of their lives The book shows how women have been surveilled disciplined managed corrected and punished and it considers the feminist strategies that have been used to address the impact of imprisonment and to draw attention to the systemic abuses against poor and racialized women In addition to updating material in the introductions and substantive chapters this second edition includes new contributions that consider the media representations of missing and murdered women in Vancouver s Downtown Eastside the gendered impact of video surveillance technologies CCTV the role of therapeutic interventions in the death of Ashley Smith the progressive potential of the Inside Out Prison Exchange Program and the use of music and video as decolonizing strategies The Globalization of

Addiction Bruce K. Alexander,2008-07-03 The Globalization of Addiction presents a radical rethink about the nature of addiction Scientific medicine has failed when it comes to addiction There are no reliable methods to cure it prevent it or take the pain out of it There is no durable consensus on what addiction is what causes it or what should be done about it Meanwhile it continues to increase around the world This book argues that the cause of this failure to control addiction is that the conventional wisdom of the 19th and 20th centuries focused too single mindedly on the afflicted individual addict

Although addiction obviously manifests itself in individual cases its prevalence differs dramatically between societies For example it can be quite rare in a society for centuries and then become common when a tribal culture is destroyed or a highly developed civilization collapses When addiction becomes commonplace in a society people become addicted not only to alcohol and drugs but to a thousand other destructive pursuits money power dysfunctional relationships or video games A social perspective on addiction does not deny individual differences in vulnerability to addiction but it removes them from the foreground of attention because social determinants are more powerful This book shows that the social circumstances that spread addiction in a conquered tribe or a falling civilisation are also built into today s globalizing free market society A free market society is magnificently productive but it subjects people to irresistible pressures towards individualism and competition tearing rich and poor alike from the close social and spiritual ties that normally constitute human life People adapt to their dislocation by finding the best substitutes for a sustaining social and spiritual life that they can and addiction serves this function all too well The book argues that the most effective response to a growing addiction problem is a social and political one rather than an individual one Such a solution would not put the doctors psychologists social workers policemen and priests out of work but it would incorporate their practices in a larger social project The project is to reshape society with enough force and imagination to enable people to find social integration and meaning in everyday life Then great numbers of them would not need to fill their inner void with addictions

Shaking Up the City Tom Slater, 2021-09-21 Shaking Up the City critically examines many of the concepts and categories within mainstream urban studies that serve dubious policy agendas Through a combination of theory and empirical evidence Tom Slater shakes up mainstream urban studies in a concise and pointed fashion by turning on its head much of the prevailing wisdom in the field To this end he explores the themes of data driven innovation urban resilience gentrification displacement and rent control neighborhood effects territorial stigmatization and ethnoracial segregation With important contributions to ongoing debates in sociology geography urban planning and public policy this book engages closely with struggles for land rights and housing justice to offer numerous insights for scholarship and political action to guard against the spread of an urbanism rooted in vested interest
