methodologies when appropriate **The Journal of Criminal Law, Criminology and Police Science**, 1912 Criminal Justice in Post-Mao China Shao-chuan Len, Hungdah Chiu, 1985-06-30 The post Mao commitment to modernization coupled with a general revulsion against the lawlessness of the Cultural Revolution has led to a significant law reform movement in the People's Republic of China. China's current leadership seeks to restore order and morale to attract domestic support and external assistance for its modernization program and to provide a secure, orderly environment for economic development. It has taken a number of steps to strengthen its laws and judicial system among which are the PRC's first substantive and procedural criminal codes. This is the first book-length study of the most important area of Chinese law: the development, organization, and functioning of the criminal justice system in China today. It examines both the formal aspects of the criminal justice system such as the court, the procuracy, lawyers, and criminal procedure, and the extrajudicial organs and sanctions that play important roles in the Chinese system. Based on published Chinese materials and personal interviews, the book is essential reading for persons interested in human rights and laws in China, as well as for those concerned with China's political system and economic development. The inclusion of selected documents and an extensive bibliography further enhance the value of the book.

Civilising Criminal Justice David J. Cornwell, John R. Blad, Martin Wright, 2013. Probably the best collection there is. *Civilising Criminal Justice* is an inescapable resource for anyone interested in restorative justice: truly international and packed with experience while combining history, theory, developments, and practical advice. This volume of specially commissioned contributions by widely respected commentators on crime and punishment from various countries is a breakthrough in bringing together some of the best arguments for long-overdue penal reform. An increasingly urgent need to change outmoded criminal processes even in advanced democracies demands an end to those penal excesses driven by political expediency and damaging notions of retribution, deterrence, and punishment for its own sake. *Civilising criminal justice* will make it fairer, more consistent, understandable, and considerate towards victims of crime, currently largely excluded from participation. Principles of reparative and restorative justice have become increasingly influential in the quest to provide justice which tackles harm, compensates victims, repairs relationships, resolves debilitating conflicts, and calls offenders to account. And in any case, what real justification is there for subjecting more and more people to the expensive but hollow experience of prison, especially at a time of economic stringency? Civil justice in its various forms can be swifter, cheaper, and more effective in court or through mediated processes focusing on the harmful consequences of offences rather than inflicting punishment that may satisfy a baying media but come home to haunt the community. This brave and generous book, 600 pages, illustrates the many different ways in which criminal justice can be civilised and how lessons can be learned from practical experience across the world and shared expertise. It is a volume that every politician should read, every criminal justice professional should possess, and that every student of criminology and penology will find invaluable. David Cornwell, John Blad, and Martin Wright are three of the leading international experts on this topic, with many publications to

Proportionality in Crime Control and Criminal Justice Emmanouil Billis,Nandor Knust,Jon Petter Rui,2021-04-22 This edited volume seeks to reassess the old and to analyse and develop novel approaches to the notion of proportionality in criminal matters and the new security architecture The discourse is not limited to conventional constitutional constellations and standard problems of sentencing in traditional criminal proceedings Rather the book offers an interdisciplinary and cross jurisdictional exploration of highly topical proportionality related issues pertinent to penal theory and legal philosophy criminalisation policies security and anti terrorism strategies alternative types of justice delivery and supranational enforcement as well as human rights and international criminal and humanitarian law In today s global risk society with its numerous visible and invisible enemies of the state and the individual balancing freedom and security has become nothing less than an attempt at untying a Gordian knot Against this background the proportionality of measures of crime prevention and repression is unquestionably an issue of utmost importance which basic research and legal policy in rule of law based systems are urgently called to address The timely and fascinating contributions in this book covering jurisdictions from both the common law and the civil law as well as hybrid and international jurisdictions will appeal to academics researchers policy advisers and practitioners working in the areas of national and international criminal law comparative criminal justice criminology and legal philosophy as well as constitutional and security law
