**Mentally Disordered Offenders** John Monahan, Henry J. Steadman, 2013-11-11 In its narrowest sense mentally disordered offender refers to the approximately twenty thousand persons per year in the United States who are institutionalized as not guilty by reason of insanity incompetent to stand trial and mentally disordered sex offenders as well as those prisoners transferred to mental hospitals The real importance of mentally disordered offenders however may not lie in this figure Rather it may reside in the symbolic

role that mentally disordered offenders play for the rest of the legal system The 3 140 persons residing in state institutions on an average day in 1978 as not guilty by reason of insanity see Chapter 4 for example are surely worthy of concern in their own right But they represent only 1% of the 307 276 persons residing in state and federal prisons in the same period U S Dept of Justice 1981 From a purely numeric point of view the insanity defense truly is much ado about little Pasewark Pasewark 1982 The central importance of understanding these persons however is that they serve a symbolic function in justifying the imprisonment of the other 99% The insanity defense as Stone 1975 has noted is the exception that proves the rule By exculpating a relatively few people from being criminally responsible for their behavior the law inculcates all other law violators as liable for social sanction Constraining the Court James B. Kelly, 2024-05-01 When the Supreme Court of Canada makes a decision that invalidates a statute it creates a constitutional moment But does that have a direct and observable impact on public policy Constraining the Court explores what happens when a statute involving a significant public policy issue French language rights in Quebec supervised consumption sites abortion or medical assistance in dying is declared unconstitutional James B Kelly examines the conditions under which Parliament or provincial territorial legislatures attempt to contain the policy impact of judicial invalidation and engage in non compliance without invoking the notwithstanding clause He considers the importance of the issue the unpopularity of a judicial decision the limited reach of a negative rights instrument such as the Charter the context of federalism and the mixture of public and private action behind any legislative response While the Supreme Court s importance cannot be denied this rigorous analysis convincingly concludes that a judicial decision does not necessarily determine a policy outcome Regulatory Reform United States.
