Creative Justice Mark Banks,2017-01-30 Creative Justice examines issues of inequality and injustice in the cultural

industries and cultural workplace It first aims to do justice to the kinds of objects and texts produced by artists musicians designers and other kinds of symbol makers by appreciating them as meaningful goods with objective qualities It also shows how cultural work itself has objective quality as a rewarding and socially engaging practice and not just a means to an economic end But this book is also about injustice made evident in the workings of arts education and cultural policy and through the inequities and degradations of cultural work In worlds where low pay and wage inequality are endemic and where access to the best cultural academies jobs and positions is becoming more strongly determined by social background what chance do ordinary people have of obtaining their own creative justice Aimed at students and scholars across a range of disciplines including Sociology Media and Communication Cultural Studies Critical Management Studies and Human Geography Creative Justice examines the evidence for and proposes some solutions to the problem of obtaining fairer and more equalitarian systems of arts and cultural work
