Standards And Apec An Action Agenda:

Standards and APEC John Sullivan Wilson, 1995 Product standards and technical regulations are critical to industrial performance and global trade and represent an important new area for international debate The elimination of overlapping and conflicting regulations could significantly reduce costs for business and consumers alike and international efforts to harmonize national regulatory systems could prove to be one of the most important parts of multilateral and regional trade talks into the 21st century Standards and Conformity Assessment as Nontariff Barriers to Trade Sherry Stephenson, 1997
