Terrorism And Global Security Louis Rene Beres, 2019-07-09 The enormous potential for destruction that lies latent in nuclear technology inevitably gives rise to the possibility of nuclear terrorism the use of nuclear explosives or radioactivity by insurgent groups Professor Beres considers the factors that might foster such terrorism the forms it might take and the probable consequences of each form He then identifies a coherent strategy of counternuclear terrorism one that embraces both technological and behavioral measures that suggests policies for deterrence and situation management on both national and international levels and that points toward a major refashioning of world order **Terrorism and Global Security**

Louis Rene Beres, 2021-06-02 The enormous potential for destruction that lies latent in nuclear technology inevitably gives rise to the possibility of nuclear terrorism the use of nuclear explosives or radioactivity by insurgent groups Professor Beres considers the factors that might foster such terrorism the forms it might take and the probable consequences of each form He then identifies a coherent strategy of counternuclear terrorism one that embraces both technological and behavioral measures that suggests policies for deterrence and situation management on both national and international levels and that points toward a major refashioning of world order *Global security* Great Britain: Parliament: House of Commons: Foreign Affairs Committee, 2009-06-14 The control of arms by means of non proliferation and disarmament is one of the most

important aims of Government foreign policy The proliferation of weapons of mass destruction nuclear chemical and biological poses a grave threat to UK and global security This report was prompted by recent developments relating to nuclear weapons but also examines wider issues The Committee examine the Government's approach to non proliferation and the institutional and policy issues relevant to the UK the EU NATO and the United States nuclear weapons including the Nuclear Non proliferation Treaty and nuclear disarmament biological and chemical weapons ballistic missiles and missile defence terrorism and physical security and conventional weapons Finally the report assesses the Government's overall strategy which is characterised by a commitment to a rules based international system *Defending the Arsenal* Adam B.

Lowther, Stephen J. Cimbala, 2016-09-19 One important area of interest within military and policy circles focuses on an effort to revitalize the nuclear triad amidst a number of competing strategic interests The difficulties arising from US engagement in Iraq and Afghanistan are leading many scholars and policy makers to question whether a reinvigorated nuclear triad has any role in deterring modern adversaries This volume takes an unashamed pro nuclear modernization position and argues for designing and fielding new nuclear warheads and delivery systems submarine ICBM and bomber while also arguing against signing the Comprehensive Test Ban Treaty or agreeing to further reductions in the nuclear arsenal It also argues that nuclear deterrence remains as relevant today perhaps more than it was during the Cold War With so many authors advocating for Global Zero and highlighting perceived dangers from a nuclear arsenal this work stands in stark contrast to the chorus of anti arsenal works Because of the work's structure and effort to answer questions of current relevance it should
