The Guinea Pigs Britains First Paratroop Raid:

The Guinea-pigs Raymond Foxall, 1983 Englands første operation med luftbårne tropper fandt sted i Italien i 1941 De barske erfaringer fra denne operation dannede basis for opstillingen af de senere faldskærmsbrigader **Night Raid** Taylor Downing, 2013-05-09 The loss of British bombers over Occupied Europe began to reach alarming levels in 1941 Could it be that the Germans were using a sophisticated form of radar to direct their night fighters and anti aircraft guns at the British bombers British aerial reconnaissance discovered what seemed to be a rotating radar tower on a clifftop at Bruneval near Le Havre The truth must be revealed The decision was taken to launch a daring raid on the Bruneval site to try and capture the technology for further examination The planned airborne assault would be extremely risky The parachute regiment had only been formed a year before on Churchill's insistence This night raid would test the men to the extreme limits of their abilities Night Raid tells the gripping tale of this mission from the planning stages to the failed rehearsals when the odds seemed stacked against them to the night of the raid itself and the scientific secrets that were discovered thanks to the paras precious cargo the German radar Its capture was of immense importance in the next stages of the war and the mission itself marked the birth of the legend of the Red Devils **Churchill's Shadow Raiders** Damien Lewis, 2020-04-28 From bestselling and award winning war reporter Damien Lewis and for fans of Erik Larsen's The Splendid and the Vile and Alex Kershaw's The Forgotten 500 comes a thrilling account of one of the most daring raids of WWII the true story of the race to stop Hitler from developing a top secret weapon that would change the course of history One of the most readable World War 2 history books I have read in years We Are the Mighty In the winter of 1941 as Britain faced defeat on all fronts an RAF reconnaissance pilot photographed an alien looking object on the French coast near Le Havre The mysterious device a Würzburg Dish appeared to be a new form of radar technology ultra compact highly precise and pointed directly across the English Channel Britain's experts found it hard to believe the Germans had mastered such groundbreaking technology But one young technician thought it not only possible he convinced Winston Churchill that the dish posed a unique and deadly threat to Allied forces one that required desperate measures and drastic action Capturing the radar on film had been an amazing coup Stealing it away from under the noses of the Nazis would be remarkable So was launched Operation Biting a mission like no other An extraordinary snatch and grab raid on Germany's secret radar installation it offered Churchill's elite airborne force the Special Air Service a rare opportunity to redeem themselves after a previous failed mission and to shift the tides of war forever Led by the legendary Major John Frost these brave paratroopers would risk all in a daring airborne assault with only a small stretch of beach menaced by enemy guns as their exit point With the help of a volunteer radar technician who knew how to dismantle the dish as well as the courageous men and women of the French Resistance they succeeded against all odds in their act of brazen robbery Some would die Others would be captured All fought with resolute bravery This is the story of that fateful night of February 27 1942 A brilliantly told thrillingly tense account of Churchill's

raiders in their finest hour this is World War II history at its heart stopping best This highly informative book almost reads like a genuine techno thriller New York Journal of Books A little known behind the lines spectacular led by two heroic British officers Kirkus Reviews Anyone who wants to learn more about the origins of the British Special Forces should read this book It intertwines historical research and eyewitness testimony to tell the untold story of heroism courage and ingenuity Military Press Lewis presents a richly detailed and nail biting tale Library Journal
