Christine Margerrison, 2008 In the first decade of a new century this collection of bilingual essays examines Camus's continuing popularity for a new generation of readers. In crucial respects the world Camus knew has changed beyond all recognition: decolonization, the fall of the Iron Curtain, a new era of globalization, and the rise of new forms of terrorism have all provoked a reconsideration of Camus's writings. If the Absurd once struck a particular chord, Meursault is as likely now to be seen as a colonial figure who expresses the alienation of the settler from the land of his birth. Yet this increasing orthodoxy must also take account of the reasons why a new community of Algerian readers have embraced Camus. Equally, once isolated because of his anti-Communist stance, Camus has been taken up by disaffected members of the Left, convinced that new forms of totalitarianism are abroad in the world. This volume, which ranges from interpretations of Camus's literary works, his journalism, and his political writings, will be of interest to all those seeking to re-evaluate Camus's work in the light of ethical and political issues that are of continuing relevance today.

, 2003 *Wor(l)ds of Trauma* Wolfgang Kloß, 2018 The essays collected in this volume address a wide spectrum of issues connected to traumatic events and experiences, be they of personal, collective, national, or global scale. They are complemented by poetic contemplations on trauma, which set the tone for the following scholarly investigations. The thematic scope of the collection encompasses psychological, sociological, and political approaches to trauma, examples of ethnic and indigenous traumatizations, literary, cultural, and visual manifestations of trauma, or the medialization of trauma in the museum. As a result of the comparative and in some cases cross-hermeneutic design of the volume, with German scholars looking at Canadian and Canadian scholars looking at German, European examples of traumatization, transatlantic perspectives on the problems at stake are opened.

**L'Chayim! a Holocaust Survivor's American Journey** Paul A. Schwarzbart, 2015-03-09 After being asked so many times by readers and listeners alike about what happened next, I decided to start at my arrival in the US at age 15 and reveal my story to the present day as I approach my 82nd birthday. The exciting journey of a young Holocaust and WWII survivor in this land of milk and honey is a vibrant testimony to an indomitable human spirit, incorrigible optimism, and tremendous good fortune. Only in America could I have made such a life for myself and my loved ones, not anywhere else.

G E started as a bimonthly magazine of information and commentary a forum for discussion and interchange Throughout we have emphasized a spectrum of writing that places its attention primarily on language and ways of making meaning that takes for granted neither vocabulary grammar process shape syntax program or subject matter All of these remain an issue Focussing on this range of poetic exploration and on related aesthetic and political concerns we have tried to open things up beyond correspondence and conversation to break down some unnecessary encapsulation of writers person to person scene from scene and to develop more fully the latticework of those involved in aesthetically related activity Repossessing the word

P IX *The Latest Catastrophe* Henry Rousso, 2016-07-06 The writing of recent history tends to be deeply marked by conflict by personal and collective struggles rooted in horrific traumas and bitter controversies Frequently today s historians can find themselves researching the same events that they themselves lived through This book reflects on the concept and practices of what is called contemporary history a history of the present time and identifies special tensions in the field between knowledge and experience distance and proximity and objectivity and subjectivity Henry Rousso addresses the rise of contemporary history and the relations of present day societies to their past especially their legacies of political violence Focusing on France Germany the United Kingdom and the United States he shows that for contemporary historians the recent past has become a problem to be solved No longer unfolding as a series of traditions to be respected or a set of knowledge to be transmitted and built upon history today is treated as a constant act of mourning or memory an attempt to atone Historians must also negotiate with strife within this field as older scholars who may have lived through events clash with younger historians who also claim to understand the experiences Ultimately *The Latest Catastrophe* shows how historians at times against their will have themselves become actors in a history still being made
