Swami Prabhupada the world's most distinguished teacher of Indian religious and philosophical thought His Sanskrit scholarship and intimate familiarity with Vedic culture combine to reveal to the West a magnificent exposition of this important classic **Srimad Bhagavatam: Chapters 45-69**, 1988 *The End of the Age* Frederick Guttman, In the first part of Apocalypse Remote Vision we have observed the points that deal with what is related to the Great Tribulation that our world will live and even the elect and faithful so that with this many may be perfected and likewise many other lukewarm awaken I have told you that the basis of these two end world books is intuition premonition visions revelations dreams extrasensory perception and remote viewing regarding things to come and I have chosen many topics that I have been able to compare and link with each other There are other popular people who have seen remarkable things but some of them are not the subject that I am dealing with here at the moment or they are not entirely clear There are others from which data can be taken with tweezers as is the case of Mrs Baba Vanga a Bulgarian citizen who predicted many things in her time She is said to have given specific dates for future events but the times and sequences attributed to the events predicted by her are exaggerated and mixed up in their temporal location Baba Vanga would have died on August 11 1996 at the age of 85 and the only allusion that seems coherent that he gave for just after his death is the one that defines that by 2018 the nation of China would become the new power world Even so we will see that this will not be exactly the case despite the fact that it is now the global economic power and perhaps the second or third military power on our planet If we remove the dates that he is supposed to have mentioned and simply refer to his warnings then we do have logical citations and which coincide with a host of other prophecies Vanga is said to have prophesied that after China became the world power the subsequent thing would be that the Earth's orbit would change slightly I would also have argued that then Europe would have serious demographic problems that hunger would slowly become a problem for humanity that there would be polar melting and strong sea level rise and the like It is also said that he warned that later the world economy would improve remarkably while in Europe the Muslims dominate We already know that this has to do with the new currency and the Islamic invasion but Vanga adds something strange **Srimad Bhagavatam [18 Vols]**, 1989 The Srimad Bhagavatam or Bhagavat Purana is the graduate study of Vedic literature and is the king of all knowledge This is the supreme science of all spiritual matters descended from the supreme Lord Krishna at the time of Creation These 12 cantos cover all the incarnations of God past present and future and explains their purpose and activities They also deal with the structure of the creation and all universes upper middle and lower planets They describe the personality of God and his friends what he wears eats and his pastimes His places of living enemies parents and relations and the perfection of his loving relationships with them and all living entities The first canto starts with the nature of the self and the purpose of life all life Who we are and why we exist It is the perfection of all religion and cultures Of all the collections of spiritual teachings found in Vedic literature Srimad Bhagavatam is considered the topmost Vedic literature is sometimes said to be a desire tree a tree that can yield whatever

one might desire and of that tree the Srimad Bhagavatam is said to be the ripe and most relishable fruit Srimad Bhagavatam is sometimes said to begin where the Bhagavad gita leaves off since it goes even further into the nature of reality and the relationship between all beings and the Absolute The Bhagavatam s eighteen thousand verses consist of hundreds of conversations spoken between yogis sages and self realized kings of the ancient world on how to achieve life s ultimate perfection Their discussions frequently center on various incarnations of Krishna the Supreme Person and descriptions of His pastimes with His devotees The entire work was compiled by Vyasadeva editor of the Vedas as his own commentary on Vedanta sutra the essence of all theistic knowledge The Bhagavatam is also known as the Bhagavat Purana one of the eighteen Puranas supplemental works in the Vedic tradition It is presented in twelve cantos volumes each of which deals with a specific aspect of the Absolute Truth the original and supreme cause of all causes It is the science and practice of bhakti yoga devotional service to the Supreme Person Perhaps the author himself Srila Prabhupada sums up the Bhagavatam best in his Preface Srimad Bhagavatam is the transcendental science not only for knowing the ultimate source of everything but also for knowing our relation with Him and our duty toward perfection of the human society on the basis of this perfect knowledge It is powerful reading matter in the Sanskrit language and it is now rendered into English elaborately so that simply by a careful reading one will know God perfectly well so much so that the reader will be sufficiently educated to defend himself from the onslaught of atheists Over and above this the reader will be able to convert others to accepting God as a concrete principle Srimad Bhagavatam begins with the definition of the ultimate source It is a bona fide commentary on the Vedanta sutra by the same author Srila Vyasadeva and gradually it develops into nine cantos up to the highest state of God realization The only qualification one needs to study this great book of transcendental knowledge is to proceed step by step cautiously It should be gone through chapter by chapter one after another The reading matter is so arranged with the original Sanskrit text its English transliteration synonyms translation and purports so that one is sure to become a God realized soul at the end of finishing the first nine cantos The Tenth Canto is distinct from the first nine cantos because it deals directly with the transcendental activities of the Personality of Godhead Sri Krsna One will be unable to capture the effects of the Tenth Canto without going through the first nine cantos The book is complete in twelve cantos Srimad Bhagavatam He A. C. Bhaktivedanta Swami Prabhupāda, Swami Prabhupada Bhaktivedanta, 2002 *Taking Shelter of Srimad Bhagavatam* Brajsundar Das, 2023-01-02 r mad Bh gavatam contains true historical accounts relating to the Supreme Personality of the Godhead and the liberation of conditioned souls It is important to note that these descriptions are not based on mythology or fiction In contrast they describe the wonderful activities performed by the Lord and His devotees prior to the advent of the present era While mundane scholars have attempted to portray the Bh gavatam as a mythological work or a recent creation this text is a transcendental text that describes not only the entire situation of this universe but also the situation that exists beyond it in both the material and spiritual realms From beginning to end Taking shelter of r

mad Bh gavatam is filled with the glories of r mad Bh gavatam It discusses how r mad Bh gavatam is completely free of contamination by the modes of nature How it is endowed with extraordinary spiritual beauty and is therefore dear to the pure devotees of the Lord Those who are seeking liberation should faithfully serve this literature by hearing it and reciting it with faith and devotion The glories of r mad Bh gavatam can remove doubts slacken karma and grant unalloyed devotion to Supreme Lord **Srimad Bhagwatam** A.
