Amateurs study tactics, goes an old saying, armchair generals study strategy but professionals study logistics. Squadron Leader Murray Harris heartily believed in it. In this book he surveys the early actions of the Second World War so as to demonstrate and prove his point focusing on the transportation of troops, supplies, oil, and ammunition. He traces the emerging patterns that would dominate the entire period. *Lifelines for the Isolated* John Weeks, 1994. This book explores strategies for giving professional support to teachers and administrators working in isolated communities. *St. Helena, Ascension, and Tristan Da Cunha* Alan Edwin Day, 1997. These three South Atlantic British dependent territories were all discovered by Portuguese seamen in the early sixteenth century. Following in the wake of the Portuguese, English and Dutch East India men found the island a convenient port of call on the long haul home. After a brief struggle, St. Helena was under the direct rule of the East India Company from 1673 to 1834 when it became a Crown Colony. It is best known as the place of exile of Napoleon Bonaparte from 1815 to his death in 1821. With the opening of the Suez Canal and the introduction of steamships, St. Helena's economy collapsed and the island has remained a quiet backwater ever since. Ascension and Tristan da Cunha were both occupied by a British garrison when Napoleon arrived on St. Helena in order to prevent any attempt at rescue. Ascension remained under Admiralty control as a stone frigate until 1922 when it became a dependency of St. Helena. During the Second World War, an American air base was constructed which was heavily used as a staging post for the British task force en route to recover the Falkland Islands in the 1982 South Atlantic War. The base continues to provide an essential link in the logistical support of the British garrison on the Falklands. A small number of families eked out a precarious and isolated existence on Tristan from 1826 to 1961 when its volcano, thought to be long extinct, suddenly erupted, causing the islanders to be evacuated to England. There was a general amazement when most of them elected to return to their hard life in 1962. Today they enjoy six calls a year by South African vessels from Cape Town in
