back to the early 1800s This is reflected in the architecture of the downtown area and surrounding neighborhoods More than just about any city in America St Louis embraced the imposing forms and lush ornamentation of the Beaux Arts tradition Indeed one can make the argument that only Washington D C in the United States has a more impressive collection of classically inspired structures American City St Louis Architecture is the first large format book on the city s architecture since the 1920s and includes over 100 new color photographs and text for 50 of the city s most important structures These range from such 19th Century masterpieces as Louis Sullivan s Wainwright Building Alfred Mullet s Old Post Office and Theodore Link s Union Station to Eero Saarinen s Gateway Arch Tadao Andao s Pulitzer Foundation for the Arts Building and Maya Lin s recently completed Ellen Clark Hope Plaza **Saint Louis** L.
