buildings and architects It also involves photographers writers advertisers and broadcasters as well as the people who finance and live in the buildings Using the career of the critic J M Richards as a lens this book takes a new perspective on modern architecture Richards served as editor of *The Architectural Review* from 1937 to 1971 during which time he consistently argued that modernism was integrally linked to vernacular architecture not through style but through the principle of being an anonymous expression of a time and public spirit Exploring the continuities in Richards's ideas throughout his career disrupts the existing canon of architectural history which has focused on abrupt changes linked to individual pioneers encouraging us to think again about who is studied in architectural history and how they are researched

Our Homes and Gardens, 1928 *The Antiquarian*, 1927 **The Oxford Handbook of the Georgian Theatre 1737-1832** Julia Swindells, David Francis Taylor, 2014-01-16 The Oxford Handbook of the Georgian Theatre 1737 1832 provides an essential guide to theatre in Britain between the passing of the Stage Licensing Act in 1737 and the Reform Act

Modern Christianity and Cultural Aspirations David Bebbington,Timothy Larsen,2003-06-01 Christianity and cultural aspirations are inevitably in tension the combination invites a suspicion that temporal pursuits have slackened a quest for divine approbation Nevertheless as Christians generally believe that worldly success may be a position of influence worth seeking for noble reasons it is truly an area of tension rather than merely temptation This volume explores this lively juxtaposition in the context of modern Britain and America In fifteen original essays a range of well respected scholars examine the cultural aspirations of a broad spectrum of Christians including Baptists Congregationalists Methodists Presbyterians Roman Catholics and Anglicans as they were expressed in arenas as diverse as politics education architecture and sport

Tracing War in British Enlightenment and Romantic Culture Gillian Russell,Neil Ramsey,2016-04-29 This volume argues for the enduring and pervasive significance of war in the formation of British Enlightenment and Romantic culture Showing how war throws into question conventional disciplinary parameters and periodization essays in the collection

consider how war shapes culture through its multiple divergent and productive traces **I Hope I Don't Intrude** David Vincent, 2015-05-14 **I Hope I Don't Intrude** takes its title from the catch phrase of the eponymous hero of the 1825 play *Paul Pry* which was an immense success on the London stage and then rapidly in New York and around the English speaking world. It tackles the complex multi faceted subject of privacy in nineteenth century Britain by examining the way in which the tropes language and imagery of the play entered public discourse about privacy in the rest of the century. The volume is not just an account of a play or of late Georgian and Victorian theatre. Rather it is a history of privacy showing how the play resonated through Victorian society and revealed its concerns over personal and state secrecy, celebrity gossip and scandal, postal espionage, virtual privacy, the idea of intimacy and the evolution of public and private spheres. After 1825 the overly inquisitive figure of Paul Pry appeared everywhere in songs, stories and newspapers and on everything from buttons and Staffordshire pottery to pubs, ships and stagecoaches and Paul Prying rapidly entered the language. **I Hope I Don't Intrude** is an innovative kind of social history using rich archival research to trace this cultural artefact through every aspect of its consumer context and using its meanings to interrogate the largely hidden history of privacy in a period of major transformations in the role of the home, mass communication, particularly the new letter post which delivered private messages through a public service and the state. In vivid and entertaining detail, including many illustrations, David Vincent presents the most thorough account yet attempted of a recreational event in an era which saw a decisive shift in consumer markets. His study casts fresh light on the perennial tensions between curiosity and intrusion that were captured in *Paul Pry* and his catchphrase. Giving a new account of the communications revolution of the period, it re-evaluates the role of the state and the market in creating a new regime of privacy. And its critique of the concept and practice of surveillance looks forward to twenty first century concerns about the invasion of privacy through new technologies **Sales** Parke-Bernet Galleries, 1951 **English Pottery** Bernard Rackham, Herbert Read, 1924
