Stained Glass Hugh Arnold, 2015-07-06 Excerpt from Stained Glass Of the Middle Ages in England and France The Cathedral verger conducting his flock of tourists round the building while giving them plenty of really interesting and valuable information about it for the verger of to day is a different man from his predecessor and is often very intelligent and well informed remarks briefly The glass is of the thirteenth century or fourteenth or fifteenth as the case may be the procession gazes carelessly at it and passes on Yet from out of that dazzling and glowing labyrinth of coloured jewels a past age is speaking far more articulately if one stops to unravel the message than ever in stone or wood and it is for those who can be induced to take that second look which will be followed by a third and a fourth and many more that I have written this book About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a
