Strategic Newspaper Management Conrad C. Fink,1988 The time is right for bright aggressive newspaper managers to influence and prosper but bleak indeed for those newspapers whose managers lack the requisite knowledge Using case studies and examples from the business Fink shows why some newspapers change with the times and surge ahead and why some continue to publish to an eroding market base and fail The difference between success and failure he concludes is in long range planning and in daily operating methodology in simply the professionalism of management at all levels

A River's Gifts Patricia Newman,2023-08-01 Audisee eBooks with Audio combine professional narration and sentence highlighting for an engaging read aloud experience A mighty river A long history For thousands of years the Elwha river flowed north to the sea The river churned with salmon which helped feed bears otters and eagles The Lower Elwha Klallam Tribe known as the Strong People located in the Pacific Northwest were

grateful for the river's abundance. All that changed in the 1790s when strangers came who did not understand the river's gifts. The strangers built dams and the environmental consequences were disastrous. Sibert honoree Patricia Newman and award-winning illustrator Natasha Donovan join forces to tell the story of the Elwha, chronicling how the Strong People successfully fought to restore the river and their way of life. THE CHALLENGE Invent a town to solve all suburban problems; meet challenges like Jane Jacobs described plus comprehensively solve all livability environmental neighborly potentials are enhanced. While at same as suburban densities 70% of the same amount of land becomes an integral open space, the concept is the problem. Affordability livability sustainability will be more difficult. General Plans that dictate existing design solutions are based on cars stifle any truly new ideas. To solve current future challenges requires entirely new concepts. With insight from the past, today's technology we can design human habitats to function as an integral part of the surrounding natural environment. This new concept town approaches the efficiency natural balance common in homes built by many other less intelligent life forms. This new concept is functionally structurally financially feasible today. www.sprawlsolutions.com **Sightseeking** Christopher J. Lenney, 2005

A startlingly original synthesis of keen observation and interpretive skill that will transform one's understanding of New England's man-made landscape. *Calculating Brilliance* Gerardo Aldana, 2022-03-15. To the modern eye, the architects at Chich'en Itza produced some of the most mysterious structures in ancient Mesoamerica. The purpose and cultural influences behind this architecture seem left to conjecture. The people who created and lived around this stunning site may seem even more mercurial. Near the structure known today as the Great Ball Court and within the interior of the Lower Temple of the Jaguar, a mural depicts a female Mayan astronomer called K'uk'ul Ek' T'u'yilaj. Weaving together archaeology, mathematics, history, and astronomy, *Calculating Brilliance* brings to light the discovery by this Mayan astronomer which is recorded in the Venus Table of the Dresden Codex. As the book demonstrates, this brilliant discovery reverberated throughout Mayan science. But it has remained obscured to modern eyes. Jumping from the vital contributions of K'uk'ul Ek' T'u'yilaj, Gerardo Aldana y Villalobos critically reframes science in the pre-Columbian world. He reexamines the historiography of the Dresden Codex and contextualizes the Venus Table relative to other Indigenous literature. From a perspective anchored to Indigenous cosmologies and religions, Aldana y Villalobos delves into how we may understand Indigenous science and discovery, both its parallels and divergences from modern globalized perspectives of science. *Calculating Brilliance* brings different intellectual threads together across time and space, from the Classic to the Postclassic, the colonial period to the twenty-first century, to offer a new vision for understanding Mayan astronomy. **Gerald L.
