Stalin Man Of Contradiction:

Stalin, Man of Contradiction Kenneth Neill Cameron, 1987 **Stalin** Marty Bloomberg, Buckley Barry Barrett, 1993-01-01 A comprehensive annotated survey of English language literature on Stalin **Stalin's Millennials** Tinatin Japaridze, 2022-02-21 This book examines Joseph Stalin's increasing popularity in the post Soviet space and analyzes how his image and the nostalgia it evokes is manipulated and exploited for political gain The author argues that in addition to the evil dictator and the Georgian comrade there is a third portrayal of Stalin the one projected by the generation that saw the tail end of the USSR the post Soviet millennials This book is not a biography of one of the most controversial historical figures of the past century Rather through a combination of sociopolitical commentary and autobiographical elements that are uncommon in monographs of this kind the attempt is to explore how Joseph Stalin's complex legacies and the conflicting cult of his irreconcilable tripartite of personalities still loom over the region as a whole including Russia and perhaps to an even deeper extent Koba's native land now the independent Republic of Georgia caught between its unreconciled Soviet past and the potential future within the European Union *The Lesser Terror* Michael Parrish, 1996-05-16 This is the first major study based on Soviet documents and revelations of the Soviet state security during the period 1939-1953 a period about which relatively little is known The book documents the role of Stalin and the major players in massive crimes carried out during this period against the Soviet people It also provides the first detailed biography of V S Abakumov Minister of State Security 1946-1951 Based on Glasnost revelations and recently released archival material this study covers the operations of Soviet state security from Beria's appointment in 1938 until Stalin's death The book pays particular attention to the career of V S Abakumov head of SMERSH counterintelligence during the war and minister in charge of the MGB the predecessor of the KGB from 1946 until his removal and arrest in July 1951 The author argues that terror remained the central feature of Stalin's rule even after the Great Terror and he provides examples of how he micromanaged the repressions The book catalogs the major crimes committed by the security organs and the leading perpetrators and provides evidence that the crimes were similar to those for which the Nazi leaders were punished after the war Subjects covered include Katyn and its aftermath the arrest and execution of senior military officers the killing of political prisoners near Orel in September 1941 and the deportations of various nationalities during the war The post war period saw the Aviator and Leningrad affairs as well as the anti cosmopolitan campaign whose target was mainly Jewish intellectuals Later chapters cover Abakumov's downfall the hatching of the Mingrelian and Doctors plots and the events that followed Stalin's death Finally there are chapters on the fate of those who ran Stalin's machinery of terror in the last 13 years of his rule These and other topics will be of concern to all students and scholars of Soviet history and those interested in secret police and intelligence operations *Socialism Betrayed* Roger Keeran, Thomas Kenny, 2010-10-20 A fresh multi faceted look at the overthrow of the Soviet State the dismemberment of the Soviet Union and the campaign to introduce capitalism from above Roger Keeran and

Thomas Kenny have given us a clear and powerful Marxist analysis of the momentous events which most directly shaped world politics today the destruction of the USSR the Superpower of socialism Norman Markowitz author of *The Rise and Fall of the People's Century* I have not read anything else with such detailed and intimate knowledge of what took place This manuscript is the most important contribution I have read Phillip Bonosky author of *Afghanistan Washington's Secret War* A well researched work containing a great deal of useful historical information Everyone will benefit greatly from the mass of historical data and the thought provoking arguments contained in the book Bahman Azad author of *Heroic Struggle Bitter Defeat Factors Contributing to the Dismantling of the Socialist State in the USSR* **Man of Contradiction** Kenneth N. Cameron,1986-01-01 **The War Against the Working Class** Will Podmore,2015-05-29 This book traces the history of revolutions and counterrevolutions since 1917 in Russia Korea Vietnam China the countries of Eastern Europe and Cuba I present the evidence of their achievements and describe the wars they were forced to fight in self defence We can learn from the efforts and the errors of the pioneers even though their conditions of being pre industrial and dependent societies were very different from Britains today The hope is that this book will provoke thought about the future of our nation in order to help us to decide what we need to do not to copy but to create *Sons of the Gods, Children of Earth* Peter W. Rose,2019-03-15 In this ambitious and venturesome book Peter W Rose applies the insights of Marxist theory to a number of central Greek literary and philosophical texts He explores major points in the trajectory from Homer to Plato where the ideology of inherited excellence beliefs about descent from gods or heroes is elaborated and challenged Rose offers subtle and penetrating new readings of Homer's *Iliad* and *Odyssey* Pindar's Tenth Pythian Ode Aeschylus's *Oresteia* Sophokles Philoktetes and Plato's *Republic* Rose rejects the view of art as a mere reflection of social and political reality a view that is characteristic not only of most Marxist but of most historically oriented treatments of classical literature He applies instead a Marxian hermeneutic derived from the work of the Frankfurt School and Fredric Jameson His readings focus on illuminating a politics of form within the text while responding to historically specific social political and economic realities Each work he asserts both reflects contemporary conflicts over wealth power and gender roles and constitutes an attempt to transcend the status quo by projecting an ideal community Following Marx Rose maintains that critical engagement with the limitations of the utopian dreams of the past is the only means to the realization of freedom in the present Classicists and their students literary theorists philosophers comparatists and Marxist critics will find *Sons of the Gods Children of Earth* challenging reading *Deadly Contradictions* Stephen P. Reyna,2016-08-01 As US imperialism continues to dictate foreign policy *Deadly Contradictions* is a compelling account of the American empire Stephen P Reyna argues that contemporary forms of violence exercised by American elites in the colonies client state and regions of interest have deferred imperial problems but not without raising their own set of deadly contradictions This book can be read many ways as a polemic against geopolitics as a classic social anthropological text or as a seminal analysis of twenty four US global wars during the Cold War and post Cold

War eras *Stalin: From Theology to the Philosophy of Socialism in Power* Roland Boer, 2017-10-17 This book not only explicates Stalin's thoughts but thinks with and especially through Stalin. It argues that Stalin often thought at the intersections between theology and Marxist political philosophy especially regarding key issues of socialism in power. Careful and sustained attention to Stalin's written texts is the primary approach used. The result is a series of arresting efforts to develop the Marxist tradition in unexpected ways. Starting from a sympathetic attitude toward socialism in power, this book provides us with an extremely insightful interpretation of Stalin's philosophy of socialism. It is not only a successful academic effort to re-articulate Stalin's philosophy but also a creative effort to understand socialism in power in the context of both the former Soviet Union and contemporary China. Zhang Shuangli, Professor of Marxist philosophy, Fudan University. Boer's book, far from both veneration and demonization of Stalin, throws new light on the classic themes of Marxism and the Communist Movement: language, nation, state, and the stages of constructing post-capitalist society. It is an original book that also pays great attention to the People's Republic of China arising from the reforms of Deng Xiaoping and which is valuable to those who beyond the twentieth century want to understand the time and the world in which we live. Domenico Losurdo, University of Urbino, Italy, author of *Stalin: The History and Critique of a Black Legend*. **Stalin's Industrial Revolution** Hiroaki Kuromiya, 1990-06-28 The first detailed English socio-political history of Stalin's industrial revolution during the initial Five Year plan depicts a period of sacrifice for the entire nation. Debates on Stalinism Mark Edele, 2020-06-11 *Debates on Stalinism* introduces major debates about Stalinism during and after the Cold War. Did Stalinism form a system in its own right or was it a mere stage in the overall development of Soviet society? Was it an aberration from Leninism or the logical conclusion of Marxism? Was its violence the revenge of the Russian past or the result of a revolutionary mindset? Was Stalinism the work of a madman or the product of social forces beyond his control? The book shows the complexities of historiographical debates where evidence, politics, personality, and biography are strongly entangled. *Debates on Stalinism* allows readers to better understand not only the history of history writing but also contemporary controversies and conflicts in the successor states of the Soviet Union, in particular Russia and Ukraine. **Political Affairs** Earl Browder, 1993 A theoretical and political magazine of scientific socialism. *Political Leaders and Military Figures of the Second World War* Steven D. Chambers, 1996 This bibliography is a compilation of approximately 3500 English language works by and about the major political leaders and military figures of the Second World War. The bibliography is intended to aid librarians in answering reference questions concerning what works are available on a certain individual, to aid graduate and undergraduate students in researching potential historical topics, and to aid the general reader in choosing a good biography of a particular individual. *Contradictions of Communism* United States. Congress. Senate. Committee on the Judiciary, 1959 **Insight Guides Russia (Travel Guide eBook)** Insight Guides, 2020-04-01 *Insight Guides Russia* Travel made easy. Ask local experts. list of standard perceptions of Stalin his qualities as a leader his relationships with his own generals and with other great world leaders his foreign policy and his role in instigating the Cold War While frankly exploring the full extent of Stalin's brutalities and their impact on the Soviet people Roberts also uncovers evidence leading to the stunning conclusion that Stalin was both the greatest military leader of the twentieth century and a remarkable politician who sought to avoid the Cold War and establish a long term detente with the capitalist world By means of an integrated military political and diplomatic narrative the author draws a sustained and compelling personal portrait of the Soviet leader The resulting picture is fascinating and contradictory and it will inevitably change the way we understand Stalin and his place in history Roberts depicts a despot who helped save the world for democracy a personal charmer who disciplined mercilessly a utopian ideologue who could be a practical realist and a warlord who undertook the role of architect of post war peace

Joseph Stalin David R. Egan, Melinda A.
