*Stalin's Russia* Martyn Whittock, 1997 Part of the Questions in History series for AS and A Level History this title examines the Soviet Union under Stalin concentrating on the period before the Second World War **Popular Opinion in Stalin's Russia** Sarah Rosemary Davies, 1997-10-02 Between 1934 and 1941 Stalin unleashed what came to be known as the Great Terror against millions of Soviet citizens The same period also saw the Great Retreat the repudiation of many of the aspirations of the Russian Revolution The response of ordinary Russians to the extraordinary events of this time has been obscure Sarah Davies's study uses NKVD and party reports letters and other evidence to show that despite propaganda and repression dissonant public opinion was not extinguished The people continued to criticise Stalin and the Soviet regime and complain about particular policies The book examines many themes including attitudes towards social and economic policy the terror and the leader cult shedding light on a hugely important part of Russia's social political and cultural history

**Stalin's Russia** Max Eastman, 2021-11-30 First published in 1940 Stalin's Russia is a close study of the development of the Stalinist regime and the flaws in socialist doctrine that made it possible The book examines the contrasts between the free and equal society heralded by the Marxist Leninist programme and the totalitarian state that emerged in its place It makes use of a wealth of material to cast light on the inner workings of Stalin's regime It explores the significance of the Stalin Hitler pact and argues that the word socialism itself became a liability to any genuine movement of liberation as a result **Industry, State, and Society in Stalin's Russia, 1926-1934** David R. Shearer, 2018-09-05 In his reexamination of the origins of the Stalinist state during the formative period of rapid industrialization in the late 1920s and early 1930s David R Shearer argues that a centralized state controlled economic system was the consciously conceived political creation of Stalinist leaders rather than the inevitable by product of socialist industrialization Focusing on the different economic and bureaucratic cultures within the industrial system Shearer reconstructs the debates in 1928 and 1929 over administrative financial and commercial reform He uses information from recently opened archives to show that attempts by the state's trading organizations to create a commercial economy enjoyed wide support offering a model that combined planning and rapid industrialization with social democracy and economic prosperity In an effort to crush the syndicate movement and establish tight political control over the economy Stalinist leaders intervened with a program of radical reforms Shearer demonstrates that professional engineers planners and industrial administrators in many cases actively supported the creation of a powerful industrial state unhampered by domestic social and economic constraints The paradoxical result Shearer shows was a loss of control The overly centralized system that emerged during the first Five Year Plan was rendered incoherent by periodic economic crises and the continuing influence of partially suppressed social and market forces

*The Cult of Ivan the Terrible in Stalin's Russia* M. Perrie, 2001-10-25 Ivan IV the sixteenth century Russian tsar notorious for his reign of terror became an unlikely national hero in the Soviet Union during the 1940s This book traces the development of Ivan's positive image placing it in the context of Stalin's campaign for patriotism In addition to historians' images of Ivan the author examines literary and artistic representations including Sergei Eisenstein's famous film banned for its depiction of the tsar which was interpreted as an allegorical criticism of Stalin

*An American Engineer in Stalin's Russia* Zara Witkin, 2023-11-15 In 1932 Zara Witkin a prominent American engineer set off for the Soviet Union with two goals to help build a society more just and rational than the bankrupt capitalist system at home and to seek out the beautiful film star Emma Tsesarskaia His memoirs offer a detailed view of Stalin's bureaucracy entrenched planners who snubbed new methods construction bosses whose cover ups led to terrible disasters engineers who plagiarized Witkin's work workers whose pride was defeated Punctuating this document is the tale of Witkin's passion for Tsesarskaia and the record of his friendships with journalist Eugene Lyons planner Ernst May and others Witkin felt beaten in the end by the lethargy and corruption choking the greatest social experiment in history and by a pervasive evil the suppression of human rights and dignity by a relentless dictatorship Finally breaking his spirit was the dissolution of his romance with Emma his Dark Goddess In his lively introduction Michael Gelb provides the historical context of Witkin's experience details of his personal life and insights offered by Emma Tsesarskaia in an interview in 1989 In 1932 Zara Witkin a prominent American engineer set off for the Soviet Union with two goals to help build a society more just and rational than the bankrupt capitalist system at home and to seek out the beautiful film star Emma Tsesarskaia

*Factory and Community in Stalin's Russia* Kenneth M. Straus, 2010-11-23 Kenneth Straus weaves together many threads in Russian social history to develop a new theory of working class formation in the years of Stalin's First Five Year Plan In so doing he addresses a long

standing debate among historians by suggesting new answers to an old question Was there social support for the Stalin regime among the Soviet working class during the 1930s and if so why Straus argues that the keys for interpreting Stalinism lie in occupational specialization on the one hand and community organization on the other He focuses on the daily life of the new Soviet workers in the factory and community arguing that the most significant new trends saw peasants becoming open hearth steel workers housewives becoming auto assembly line workers and machine operatives and youth training en masse rather than occupations categories in the vocational schools in the factories the FZU Tapping archival material only recently available and a wealth of published sources Straus presents Soviet social history within a new analytical framework suggesting that Stalinist forced industrialization and Soviet proletarianization is best understood within a comparative European framework in which the theories of Marx Durkheim and Weber best elucidate both the broad similarities with Western trends and the striking exceptional aspects of the Soviet experience

leadership from the outbreak of the Second World War in 1939 to his death in 1953 Making use of a wealth of new material from Russian archives Geoffrey Roberts challenges a long list of standard perceptions of Stalin his qualities as a leader his relationships with his own generals and with other great world leaders his foreign policy and his role in instigating the Cold War While frankly exploring the full extent of Stalin's brutalities and their impact on the Soviet people Roberts also uncovers evidence leading to the stunning conclusion that Stalin was both the greatest military leader of the twentieth century and a remarkable politician who sought to avoid the Cold War and establish a long term detente with the capitalist world By means of an integrated military political and diplomatic narrative the author draws a sustained and compelling personal portrait of the Soviet leader The resulting picture is fascinating and contradictory and it will inevitably change the way we understand Stalin and his place in history Roberts depicts a despot who helped save the world for democracy a personal charmer who disciplined mercilessly a utopian ideologue who could be a practical realist and a warlord who undertook the role of architect of post war peace
