Stamford An Illustrated History:

Stamford Estelle F. Feinstein, Joyce S. Pendery, 1984 In the early 1600s a handful of restless inhabitants of the Massachusetts Bay Colony left Boston for Wethersfield Connecticut later continuing on to the site then known as Rippowam Rippowam became known as Stamford a sleepy New England village But as New York began emerging as the preeminent city in America Stamford less than 40 miles away was pulled into a new sphere Even in the dawn of its own industrial prosperity in the 19th century Stamford was the home of New York commuters It was also the home of an increasingly diverse population After eras of subsistence then surplus farming in the 17th and 18th centuries industrial enterprise and trade in the 19th and the postindustrial slump Stamford today with sweet irony is the site of a large cluster of Fortune 500 companies who left New York behind *Stamford Sports* Stamford Historical Society, 2013-04-08 At the turn of the 20th century Stamford was fast becoming an industrial powerhouse quickly earning its nickname of The City That Works As manufacturing boomed and drew thousands of immigrants to the city sports clubs formed at an equally rapid pace Stamford's large and thriving industrial league provided a means for those working six day weeks to let off steam productively and enjoyably Stamford Sports covers the history of sports in Stamford from its earliest baseball and basketball teams in the 1890s through the burgeoning of sports of all types for everyone brought on by the passage of Title IX in the 1970s

Centennial Illustrated History of the City of Bridgeport, Conn, 1900 The Oxford Illustrated History of the Vikings P. H. Sawyer, 2001 Were the Vikings as contemporary description had it a valiant wrathful foreign purely pagan people who swept in from the sea to plunder and slaughter Or in the words of a Manx folksong were wolves keen in hungry quest who lived and died by the sea and the sword Or were they unusually successful merchants extortionists and pioneer explorers This book by leading international scholars considers the latest research and presents a compelling picture of the Vikings and their age Excavations as far apart as Dublin and Newfoundland York and Kiev provide fascinating archaeological evidence expertly interpreted in this extensively illustrated book *Cassell's Illustrated History of India* James Grant, 1878

The Popular History of England: an Illustrated History of Society and Government from the Earliest Period to Our Own Time Charles Knight, 1856 **Long Island Sound** James S. Latimer, Mark A. Tedesco, R. Lawrence Swanson, Charles Yarish, Paul E. Stacey, Corey Garza, 2013-11-22 The U S Ocean Commission Report identified the need for regional ecosystem assessments to support coastal and ocean management These assessments must provide greater understanding of physical and biological dynamics than assessments at global and national scales can provide but transcend state and local interests This need and timeliness is apparent for Long Island Sound where a multi state regional restoration program is underway for America's most urbanized estuary Synthesis of the Long Island Sound ecosystem is needed to integrate knowledge across disciplines and provide insight into understanding and managing pressing issues such as non point sources of pollution coastal development global climatic change and invasive species Currently there is a need for a

comprehensive volume that summarizes the ecological and environmental dynamics and status of Long Island Sound and its myriad ecosystems It has been 30 years since a comprehensive summary of Long Island Sound was prepared and 50 years since the pioneering work of Gordon Riley Major advances in estuarine science are providing new insights into these systems and yet the condition of many estuaries is in decline in the face of continuing coastal development There is an opportunity to lay a foundation for integrative coastal observing systems that truly provide the foundation for improved decision making This book will provide a key reference of our scientific understanding for work performed over the past three decades and guide future research and monitoring in a dynamic urbanized estuary

Burns,2012-02-16 Focusing on four medium sized northeastern cities with strong political traditions *Electoral Politics Is Not Enough* analyzes conditions under which white leaders respond to and understand minority interests Peter F Burns argues that conventional explanations including the size of the minority electorate the socioeconomic status of the citizenry and the percentage of minority elected officials do not account for variations in white leaders understanding of and receptiveness toward African American and Latino interests Drawing upon interviews with more than 200 white and minority local leaders and through analysis of local education and public safety policies he finds that unconventional channels namely neighborhood groups and community based organizations strongly influence the representation of minority interests **The Book of**

Royal Illustrated History of Eastern England A. D. Bayne, 1873 **A Cumulative Bibliography of Medieval Military History and Technology** Kelly DeVries, 2001-11-01 There is perhaps no other more lively area for study in medieval history than medieval military history with its attendant and complementary field the history of medieval military technology In the past twenty years it seems that more major scholarly inroads have been made in this field than in any other historical genre of medieval studies or chronological period of military history What this has meant is that it is now more difficult to keep up with all of the trends and sources in the field than ever before Hence the need for a reference work which covers what has previously been written and which in turn can assist the scholar both the more experienced academic and the beginner to improve his or her work in medieval military history or the history of medieval military technology Utilizing library catalogues bibliographies and footnotes this bibliography has compiled the most complete list of secondary references to works in medieval military history and the history of military technology It keeps fairly strictly to a geography which centers on conventional medieval boundaries Europe Byzantium and the Middle East However the chronology does differ from the conventional medieval dates Because of its influence on the early Middle Ages references to Late Antiquity especially to the military history and technology of the third and fourth century Roman Empire have been included For the opposite reason the influence of the Middle Ages on the sixteenth and early seventeenth centuries references to military history and technology up to 1648 have been included as well This is especially important in the study of the Ottoman Turkish Wars and Arms and Armor where the end of the fifteenth century as a chronological terminus makes little sense
