*Ukrainian Intelligentsia in Post-Soviet L'viv* Eleonora Narvselius, 2012-01-01 Intelligentsia assumes the right to speak in the name of the entire nation and to extrapolate its own tastes values and choices to it Therefore intelligentsia s voices have been in many ways decisive in the discussions about Ukrainian national identity which gained momentum in the post Soviet Ukrainian society The historical and cultural cityscape of L'viv is an especially apt site for investigation of the nexus intelligentsia nation not only in the Ukrainian but in the East Central European context This borderline city while not being a remarkable industrial administrative or political centre has acquired the reputation of a site of unique cultural production and a principal center of the Ukrainian nationalist movement throughout the twentieth century Here the popular conceptions of intelligentsia have been elaborated at the intersection of various cultural historical and political traditions This study addresses Ukrainian speaking intelligentsia and intellectuals in L'viv both as a discursive phenomenon and as the social category of cultural producers who in the new circumstances both articulate the nation and are articulated by it

**The Cosmopolitan Dream** Derek Hird, Geng Song, 2018-09-06

The *Cosmopolitan Dream* presents the broad patterns in the transformations of mainland Chinese masculinity over recent years, covering both representations in film and on television and the lived experiences of Chinese men on four continents. Exposure to transnational influences has made Chinese notions of masculinity more cosmopolitan than ever before, yet the configurations of these hybrid masculinities retain the imprint of Chinese historical models. With the increasing interconnectivity of markets around the world, the hegemonic mode of manhood is now a highly mobile transnational business form of masculinity. However, the fusion of this kind of cosmopolitanism with Chinese characteristics has not diminished the conventional class and gender privileges for educated men. On the other hand, the traditionally prized intellectual masculinity in Chinese culture, which did not hold commerce in high regard, has reconciled with today's business values. Together, these factors shape the outlook of the contemporary generation of Chinese elites. At the same time, globalization has increased the cross-country mobility of blue-collar Chinese men who may possess a masculine ideal that is different from their white-collar counterparts. Therefore, it is important to examine various types of masculinity with the recent reform-era mainland Chinese migration. The migrant man, whether he is a worker, student, pop idol, or writer, all cases studied in this volume, could face challenges to his masculinity based on his race, class, intimate partners, or fatherhood. The strategies adopted by the Chinese men to reinvent their masculine identities in these stories offer much insight into the complex connections between masculinity and the rapid socioeconomic developments of postsocialist China. The *Cosmopolitan Dream* provides a rich and multidisciplinary window into how Chinese masculinities are both shaping and being shaped by a new era of globalization, one in which circulations of Chinese capital, images, and people play an ever more important role. This is an insightful and engaging work that makes important contributions to the study of media, gender, migration, and globalization more broadly.

John Osburg, University of Rochester  
A pioneering contribution toward understanding transnational Chinese masculinities. Covering both imagined representations and the actual experience of migrating Chinese men, this volume is definitely greater than the sum of its parts in conveying the contents and significance of cosmopolitanism to Chinese masculinities.

**The Great Urban Transformation** You-tien Hsing, 2010-01-21

As China is transformed, relations between society, the state, and the city have become central. The *Great Urban Transformation* investigates what is happening in cities, the urban edges, and the rural fringe in order to explain these relations. In the inner city of major metropolitan centers, municipal governments battle high-ranking state agencies to secure land rents from redevelopment projects, while residents mobilize to assert property and residential rights. At the urban edge, as metropolitan governments seek to extend control over their rural hinterland through massive-scale development projects, villagers strategize to profit from the encroaching property market. At

the rural fringe township leaders become brokers of power and property between the state bureaucracy and villages while large numbers of peasants are dispossessed dispersed and deterritorialized and their mobilizational capacity is consequently undermined The Great Urban Transformation explores these issues and provides an integrated analysis of the city and the countryside elite politics and grassroots activism legal economic and socio political issues of property rights and the role of the state and the market in the property market

*War and Revolution in South China* Edward J. M. Rhoads, 2021-09-10 In *War and Revolution in South China* Edward Rhoads recounts his childhood and early teenage years during the Sino Japanese War and the early postwar years Rhoads came from a biracial family His father was an American professor while his Chinese mother was a typist and stenographer In the late 1930s and the 1940s the Rhoads family lived through the turbulent years in southern China and Hong Kong The book follows Rhoads childhood in Guangzhou his family's evacuation to Hong Kong his father's internment and repatriation to the United States and his and his mother's flight to Free China He recalls his reunion with family members in northern Guangdong Province in 1943 their retreat to China's wartime capital of Chongqing where his father worked for the American government and how they returned to Guangzhou after the war The Rhoads family then witnessed the socioeconomic recovery in the city and the regime change in 1949 The book ends with their departure from China to the United States in 1951 a year and a half after the Communist revolution The book fills an important gap in the scholarship by examining the impact of the Sino Japanese War in southern China from the perspective of one family Rhoads reveals that the war in this region while often neglected by scholars was in fact no less turbulent than it was in northern and central China He combines autobiography with serious historical research to reconstruct the lives of his family consulting a large number of archival documents private correspondence and scholarly literature to produce a rare study that is both scholarly and accessible This book is a very timely reminder that one should look at the experience of China during the Second Sino Japanese War and the Second World War from a regional perspective in order to understand the diverse historical experience of the people from different geographical ethnic cultural and social backgrounds Chi man Kwong Hong Kong Baptist University A pleasure to read and of compelling interest Edward Rhoads book explores the more benign side of the foreign influence in modern China the introduction of modern educational institutions The intriguing lens through which we look is his biracial family their multiple flights across southern China as refugees escaping war and their eventual expulsion from China Stephen Davies The University of Hong Kong
