Stan Shaw Master Cutler:

Stan Shaw, Master Cutler Geoffrey Tweedale,1993 *Mesters to Masters* Clyde Binfield,David Hey,1997 Founded in 1624 the Cutlers Company of Hallamshire has played a crucial role in the history of Sheffield as supervisor and regulator of cutlery and steel trades in the steel capital of the world This book written by noted scholars and experts provides a history of the company and its activities *Sheffield Steel and America* Geoffrey Tweedale,1987 The book provides an important contribution to the technological and commercial history of crucible and electric steelmaking by thoroughly examining its development in Sheffield and American centres such as Pittsburgh It also discusses cutlery saw and file manufacturing where the Americans quickly shed Sheffield s traditional technologies and with the help of superior marketing established a word lead by 1900 It is also shown however that this did not free the US from its dependence on Sheffield steel Sheffield s innovation in special steelmaking which began with the Hunstman crucible process in 1742 continued with a series of brilliant firsts which gave the world tool manganese silicon vanadium and stainless steel alloys Thus the US continued to draw from Sheffield know how even in the twentieth century a transfer of technology that was facilitated by the foundation of Sheffield s own subsidiary firms in America the history of which is recounted here *The Historical Archaeology of the Sheffield Cutlery and Tableware Industry* Victoria Beauchamp,Joan Unwin,2002 For more than 250 years the name Sheffield was synonymous with the cutlery industry although archaeological evidence shows that the industry goes back as far as the 12th century With many of the buildings rapidly disappearing or being redeveloped aside from those that have already been destroyed this type of publication forms a vital record of an important part of industrial England The contributors to this volume look at the development of the industry in the 18th century the production of cutlery and flatware forks and spoons the organisation of the labour and working practices and the geographical and structural development of workshops and other buildings associated with the industry *Cutlery for the Table* Simon Moore,1999 **Steel City** Geoffrey Tweedale,1995 The book focuses on the historical evolution of firms and industry leaders and their strategies Sheffield s experience is then related to current historical and economic debates about industrial structure entrepreneurship and UK decline Sheffield is revealed with some important qualifications as a remarkably enduring and successful centre and also a highly complex one which cannot be fitted easily into present theories of mass production and entrepreneurial failure
