Companion to Photography Stephen Bull, 2020-02-03 The study of photography has never been more important A look at

today's digital world reveals that a greater number of photographs are being taken each day than at any other moment in history. Countless photographs are disseminated instantly online and more and more photographic images are earning prominent positions and garnering record prices in the rarefied realm of top art galleries. Reflecting this dramatic increase in all things photographic, *A Companion to Photography* presents a comprehensive collection of original essays that explore a variety of key areas of current debate around the state of photography in the twenty-first century. Essays are grouped and organized in themed sections including photographic interpretation, markets, popular photography, documents, and fine art and provide comprehensive coverage of the subject. Representing a diversity of approaches, essays are written by both established and emerging photographers and scholars as well as various experts in their respective areas. *A Companion to Photography* offers scholars and professional photographers alike an essential and up-to-date resource that brings the study of contemporary photography into clear focus.

Public Art Encounters Martin Zebracki, Joni M. Palmer, 2017-09-05 Public art is produced and lived within multiple interlaced and contested political, economic, social, and cultural symbolic spheres. This lively collection is a mix of academic and practice-based writings that scrutinise conventional claims on the inclusiveness of public art practice. Contributions examine how various social differences across class, ethnicity, age, gender, religion, ability, and literacy shape encounters with public art within the ambits of the design, regeneration, and everyday experiences of public spaces. The chapters richly draw on case studies from the Global North and South, providing comprehensive insights into the experiences of encountering public art via a variety of scales and realms. This book advances critical insights of how socially practised public arts articulate and cultivate geographies of social difference through the themes of power, the politics of encountering, affect, the embodied ways of encountering, and diversity, the inclusiveness of encountering. It will appeal to scholars, students, and practitioners of cultural geography, the visual arts, urban studies, political studies, and anthropology.
