Campbell,2021-08-09 This work provides readers with an authoritative resource for understanding the true extent and nature of gun violence in America examining the veracity of claims and counterclaims about mass shootings gun laws and public attitudes about gun control This work is part of a series that uses evidence based documentation to examine the veracity of claims and beliefs about high profile issues in American culture and politics Each book in the *Contemporary Debates* series is intended to puncture rather

The Second Amendment and Gun Control Kevin Yuill, Joe Street, 2017-09-14 The Second Amendment by far the most controversial amendment to the US Constitution will soon celebrate its 225th anniversary Yet despite the amount of ink spilled over this controversy the debate continues on into the 21st century Initially written with a view towards protecting the nascent nation from more powerful enemies and preventing the tyranny experienced during the final years of British rule the Second Amendment has since become central to discussions about the balance between security and freedom It features in election contests and informs cultural discussions about race and gender This book seeks to broaden the discussion It situates discussion about gun controls within contemporary debates about citizenship culture philosophy and foreign policy as well as in the more familiar terrain of politics and history It features experts on the Constitution as well as chapters discussing the symbolic importance of Annie Oakley the role of firearms in race and filmic representations of armed Hispanic girl gangs It asks about the morality of gun controls and of not imposing them The collection presents a balanced view between those who favour more gun controls and those who would prefer fewer of them It is infused with the belief that through honest and open debate the often bitter cultural divide on the Second Amendment can be overcome and real progress made It contains a diverse range of perspectives including uniquely a European perspective on this most American of issues

Human Rights and Personal Self-defense in International Law Jan Arno Hessbruegge, 2017 While an abundance of literature covers the right of states to defend themselves against external aggression this is the first book dedicated to the right to personal self defense in international law Dr Hessbruegge sets out in careful detail the strict requirements that human rights impose on defensive force by law enforcement authorities especially police killings in self defense The book also discusses the exceptional application of the right to personal self defense in military led operations notably to contain violent civilians who do not directly participate in hostilities The author establishes that international law gives individuals the right to forcibly resist human rights violations that pose a serious risk of significant and irreparable harm At the same time he calls into question prevailing state practice which fails to recognize any collective right to organized armed resistance even when it constitutes the last resort to defend against genocide or other mass atrocities

The War on Guns John R. Lott, 2016-08-01 When it comes to the gun control debate there are two kinds of data data that is accurate and data that left wing billionaires liberal politicians and media want you to believe is accurate In *The War on Guns Arming Yourself Against Gun Control* Lies nationally renowned economist John R Lott Jr turns a skeptical eye to well funded anti gun studies and stories that perpetuate false statistics to frighten Americans into giving up their guns In this his latest and most important book *The War on Guns* Lott offers the most thorough debunking yet of the so called facts data and arguments of anti gun advocates exposing how they have repeatedly twisted or ignored the real evidence the evidence that of course refutes them on every point In *The War on Guns* you will learn Why gun licenses and background checks don't stop crime How gun free zones actually attract mass shooters Why Stand Your Ground laws are some of the best crime deterrents we have Women now hold over a quarter of concealed handgun permits How big money liberal foundations and the federal government are pouring hundreds of millions of dollars into public health studies the sole purpose of which is to manufacture false data against guns How media bias and ignorance skew the gun debate and why it will get worse From 1950 to 2010 not a single mass public shooting occurred in an area where general civilians are allowed to carry guns

Law by Night Jonathan Goldberg-Hiller, 2023-11-28 In *Law by Night* Jonathan Goldberg Hiller asks what we can learn about modern law and its authority by understanding how it operates in the dark of night He outlines how the social experience and cultural meanings of night promote racialized and gender violence but also make possible freedom of movement for marginalized groups that might be otherwise unavailable during the day Examining nighttime racial violence curfews gun ownership the right to sleep and take back the night rallies Goldberg Hiller demonstrates that liberal legal doctrine lacks a theory of the night that accounts for a nocturnal politics that has historically allowed violence to persist By locating the law's nocturnal limits Goldberg Hiller enriches understandings of how the law reinforces hierarchies of race and gender and foregrounds the night's potential to enliven a more egalitarian social life

Repeal the Second Amendment Allan J. Lichtman, 2020-01-28 A radical case for the repeal of the 2nd Amendment as the only way to control gun violence in America There is an average of one mass shooting per day in the United States Given the ineffectiveness of the gun control lobby it is time for a strategy with spine In *Repeal the Second Amendment* Allan J Lichtman has written the first book that uses history legal theory and up to the minute data to make a compelling case for the amendment's repeal in order to create a clear road to sensible gun control in the US *Repeal the Second Amendment* explores both the true history and current interpretation of the Second Amendment to expose the NRA's blatant historical manipulations and irresponsible fake news releases Lichtman looks at the history of firearms and gun regulations from colonial times to the present to explain how a historically forgotten sentence in the Constitution has become a flash point of recent politics that benefits only the gun industry their lobbyists and

the politicians on their payroll He probes court decisions and the effective lobbying and public relations strategies of the gun lobby as well as the ineffectiveness of the gun control movement for lessons in doing better What emerges is a clear and cogent plan repeal and replace the Second Amendment without taking guns away from anyone who has them now to make the US a safer place It s time to Repeal the Second Amendment and Allan Lichtman is the man to bring this radical plan to America **Oh, Florida!** Craig Pittman,2016-07-05 A New York Times Bestseller Oh Florida That name That combination of sounds Three simple syllables and yet packing so many mixed messages To some people it s a paradise To others it s a punch line As Oh Florida shows it s both of these and more important it s a Petri dish producing trends that end up influencing the rest of the country Without Florida there would be no NASCAR no Bettie Page pinups no Glenn Beck radio rants no USA Today no Stand Your Ground you get the idea To outsiders Florida seems baffling It s a state where the voters went for Barack Obama twice yet elected a Tea Party candidate as governor Florida is touted as a carefree paradise yet it s also known for its perils alligators sinkholes pythons hurricanes and sharks to name a few It attracts 90 million visitors a year some drawn by its impressive natural beauty others bewitched by its manmade fantasies Oh Florida explores those contradictions and shows how they fit together to make this the most interesting state It is the first book to explore the reasons why Florida is so wild and weird and why that s okay Florida couldn t be Florida without that sense of the unpredictable unexpected and unusual lurking behind every palm tree But there is far more to Florida than its sideshow freakiness Oh Florida explains how Florida secretly subtly influences all the other states in the Union both for good and for ill
