

The Standard for Dog Breeding

Standard	Guidance
<p>1. The breeder must comply with all legislation relevant to their breeding establishment. Wherever legislation requires dogs' needs to be provided and they are expressed thus:</p> <p>"an animal's needs shall be taken to include:</p> <ul style="list-style-type: none"> a) its need for a suitable environment, b) its need for a suitable diet, c) its need to be able to exhibit normal behaviour patterns, d) any need it has to be housed with, or apart from, other animals, and e) its need to be protected from pain, suffering, injury and disease." 	<p>All dogs in England and Wales are subject to the Animal Welfare Act 2006. In Scotland the Animal Health and Welfare (Scotland) Act 2006, and in Northern Ireland the Welfare of Animals (Pests and Diseases) Order 2006. In addition, where breeders may be subject to additional legislation.</p> <p>Where this standard is not complied with, strictly as the name indicates, the legislation the Dog Breeding Reform Group considers that complying with these standards is likely to fulfil the requirements of the relevant legislation.</p>
<p>2. Records must be kept for all activity relating to the dogs and kept for 10 years. Records must include:</p> <ul style="list-style-type: none"> a) Name, date of birth and permanent identification, b) Breed where appropriate, c) Colour and other distinguishing marks, d) Registration number where appropriate, e) Date of acquisition, f) Weight, g) All veterinary treatment, h) Dates of mating, i) For bitches, date of whelping and number of puppies, j) For dogs, dates of matings and number of puppies, k) Results of all tests for inherited defects, and the date of the tests, l) Date of leaving the breeder, and contact details for destination. 	<p>Records may be kept manually or on computer. Where kept on computer, same means of backing records for the computer should be available. There should also be facility for regular back-up of records to prevent loss.</p>
<p>3. When euthanasia is required at any age it must be carried out by a veterinary surgeon and recorded to include the reason for euthanasia and the name of the veterinary surgeon who performed it. Breeding stock must not be routinely euthanased when no longer required for breeding.</p>	<p>This applies equally to animals at breeding stock as well as to puppies. Puppies should not be euthanased simply because they have a colour or morphological defect that will not affect welfare or cause commercial failure or compromise health. Affected dogs should be retained.</p> <p>In breeding stock, should only be euthanased where they are incapable of being re-homed, as suggested by either a veterinary surgeon, or a breeder and working at the level of agreed shared decision-making. Euthanased animals should be sent to a Veterinary Refranchiser, as defined by the Animal Welfare and Training Council www.abrcouncil.org.uk</p>

Your Own Show Dog Ann Seranne, 2004-12-03 Back by popular demand the only breeding book endorsed by top breeders There are many books on breeding dogs but Ann's book is so on target and comprehensive that it has become a bible among successful breeders The news that Howell is making this modern classic available again is to the benefit of both new and future generations of aspiring breeders From the new Foreword by Wendell J Sammet The American Kennel Club's first Breeder of the Year 2002 The bible of quality dog breeding The Joy of Breeding Your Own Show Dog is a must have for novice and veteran breeders alike covering everything from developing a viable breeding program to genetics to whelping raising and socializing puppies Written in easy to understand language by renowned dog breeder Ann Seranne this classic takes you step by step through the entire process of breeding a successful litter from the moment of conception to a dog's first show You'll see how to select a method of breeding evaluate your own breeding stock and the potential of a litter avoid the pitfalls of whelping and properly care for the litter until the puppies are ready to go to their new homes Ann Seranne's deep love of dogs her vast knowledge and her expertise make this the only guide you will ever need to become a successful breeder Livestock guardian dog Roland Berger, 2022-04-15 Are you interested in the breeds of guard dogs You have made

a good choice Herd protection dogs are something very special and that in every respect They impress not only with their imposing size but also by their external appearance This can be very striking depending on the breed While some come up with a beautiful long and white coat others have shaggy hair that looks like dreadlocks Many of these guard dogs have in common that they are descended from Asian dogs which came to Europe many thousands of years ago through the migrations These dogs already possessed the important qualities of natural protection and guarding instincts and also the gift of acting independently and making decisions without human interference The contents of the book are Difference guard dog and herding dog A portrait of guard dogs Which breeds are there Education of the dogs Herding dogs at home FCI Standards Summary Even the diet of the guard dogs which is still unusual today can be traced back to this time They are not fed like conventional domestic dogs but much lower in protein Furthermore these dogs are also able to digest dairy products

which is not the case with normal dogs and can lead to digestive disorders Now the future owner of such a dog should be aware however that likewise the attitude and education can lead to considerable problems Such a large dog needs a lot of space and it is not enough to have a small garden The demands of a guard dog are somewhat higher and you must be able to fulfill them so that your companion can lead a species appropriate life As you can see from these few lines a guard dog is not a dog for everyone It belongs in absolutely experienced hands If you belong to these experienced hands inform yourself in this guide about the different breeds of guard dogs Learn what belongs to their strengths and weaknesses and whether such a special dog is also suitable as a family dog Have fun reading and learn
