Strange But True Thomas Slemen,1998-03-01 **When The Time Stops** Onkar Singh Batra,2018-10-04 This Book is made for the people who like seeking beyond the different theories that are flying around the world with No proof This Book is 80% truth and 20% just the views of the author **The Encyclopedia of Moon Mysteries** Constance Victoria Briggs,2019-03-19 Our moon is an enigma The ancients viewed it as a light to guide them in the darkness and a god to be worshipped In modern times it has been taught that the Moon is simply a dead rock that is caught in Earth s gravity with no activity As a researcher of metaphysical paranormal and cosmic subjects I have come across stories and information about the Moon that tell us that indeed there is activity there and there has been for generations Just who or what is causing the commotion is a mystery There are stories that suggest that the Moon is home to extraterrestrials theories that it is not a natural satellite tales of anomalous lights and tales that NASA astronauts saw extraterrestrial ships and ruins of an ancient civilization there There is a rumor that Apollo13 was saved by extraterrestrials Another story states that there are extraterrestrial bases on the Moon There is even a tale that states that a part of the kingdom of Atlantis was once located there Some even believe that there are cities beneath the surface of the Moon There is an interesting account of a government employee using remote viewing as a means of seeing what is on the Moon His experience is eye opening This is just a sample of the information that will be in The Encyclopedia of Moon Mysteries Secrets Conspiracy Theories Anomalies Extraterrestrials and More For example did you know that Aristotle and Plato wrote about a time when there was no Moon They even gave a name of an ancient tribe of people that lived during that moonless period several of the NASA astronauts reported seeing UFOs while traveling to the Moon the Moon might be hollow Apollo 10 astronauts heard strange space music when traveling on the far side of the Moon strange and unexplained lights have been seen on the Moon for centuries there are said to be ruins of structures on the Moon there is an ancient tale that suggests that the first human was created on the Moon that radio signals have been detected coming from the Moon that famed astronomer Sir John Herschel saw unidentified lights above the Moon during an eclipse that ancient Bolivian symbols tell us that the Moon came into Earth s orbit around 12 000 years ago a psychic was used by the government to relay information about the Moon The book is separated into A to Z sections for easy reference and reading **The Haunting of America** William J. Birnes,Joel Martin,2025-06-25 In the tradition of their Haunting of the Presidents national bestselling authors Joel Martin and William J Birnes write The Haunting of America From The Salem Witch Trials to Harry Houdini the only book to tell the story of how paranormal events influenced and sometimes even drove political events In a narrative retelling of American history that begins with the Salem Witch Trials of the seventeenth century Martin and Birnes unearth the roots of America s fascination with the ghosts goblins and demons that possess our imaginations and nightmares The authors examine the political history of the United States through the lens of the paranormal and investigate the spiritual events that inspired public policy

channelers and mediums who have advised presidents UFOs that frightened the nation's military into launching nuclear bomber squadrons toward the Soviet Union out of body experiencers deployed to gather sensitive intelligence on other countries and even spirits summoned to communicate with living politicians The Haunting of America is a thrilling exploration of the often unexpected influences of the paranormal on science medicine law government the military psychology theology death and dying spirituality and pop culture At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied

The Case That Foiled Fabian Simon Read, 2014-06-02 On Wednesday 14 February 1945 the body of Charles Walton was discovered on the lower slopes of Meon Hill near the sleepy Warwickshire village of Lower Quinton his torso pinned to the ground by a pitchfork Myths and rumours soon swirled about the crime Accounts claim Walton a retired labourer and a lifelong resident of Lower Quinton was believed by many to be a clairvoyant who could talk to birds and exercise control over animals It has even been reported that many villagers attributed Walton's death to ritual witchcraft But what is fact and what is fiction The most famous police officer in Britain Chief Inspector Robert Fabian was promptly dispatched by Scotland Yard to solve this increasingly peculiar and foreboding mystery Fabian of the Yard was not a man prone to superstition and had dealt with some of the most notorious killers of his time but there was something strange about the Walton murder Did the clues point to ritual witchcraft as the modus operandi or was the black magic angle merely a ruse With the villagers unable or unwilling to shed light on the matter Fabian faced for the only time in his glittering career the daunting prospect of failure The Case That Foiled Fabian lays out for the first time what actually happened and distills the truth from the many myths about this case that are today mistaken for facts
